2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' and the Companies Act 2006. The amendments to FRS 101 (2014/15 Cycle) issued in July 2015 and effective immediately have been applied.

In preparing these financial statements, the company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The preparation of financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the company's accounting policies (see note 3).

Exemption from preparing group accounts

The company is itself a subsidiary company and is exempt from the requirement to prepare group accounts by virtue of section 401 of the Companies Act 2006. These financial statements therefore present information about the company as an individual undertaking and not about its group.

The results of the company are included in the consolidated financial statements of General Electric Company which are available from 41 Farnsworth Street, Boston, MA 02210, USA or at www.ge.com.

Notes to the Financial Statements

2 Accounting policies (continued)

Summary of disclosure exemptions in preparing these financial statements,

The company has taken advantage of the following disclosure exemptions under FRS 101:

- the requirements of IFRS 7 Financial Instruments: Disclosures;
- the requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement;
- the requirement in paragraph 38 of IAS 1 'Presentation of Financial Statements' to present comparative information in respect of:
 - paragraph 79(a)(iv) of IAS 1;
 - the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134-136 of IAS 1 Presentation of Financial Statements;
 - the requirements of IAS 7 Statement of Cash Flows;
 - the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors;
 - the requirements of paragraph 17 of IAS 24 Related Party Disclosures;
 - the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member.

Going concern

The financial statements have been prepared on a going concern basis, notwithstanding net current liabilities of £48,000 (2015: £18,000).

The directors have reviewed the financial position of the company, including the arrangements with group undertakings. The directors have considered the financial position of the company's immediate group and ultimate parent.

On the basis of their assessment of the company's financial position and of the enquiries made by the directors, the company's directors have no reason to believe that a material uncertainty exists that may cast significant doubt about the ability of the immediate group to continue as a going concern. Accordingly they expect that the company will be able to continue in operational existence for the foreseeable future and hence continue to adopt the going concern basis of accounting in preparing the annual financial statements.

IGE USA Holdings

Notes to the Financial Statements

2 Accounting policies (continued)

Tax

Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the company operates and generates income.

Full provision is made for deferred tax liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as probable that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

Investments

Investments in subsidiaries are valued at cost less provision for impairment.

At each balance sheet date the company reviews the carrying amounts of its investments to determine whether there is any indication that those investments have suffered an impairment loss. If such indication exists, the recoverable amount of the investment is estimated based on its net asset value and value in use. Where the recoverable amount of the investment is less than the carrying value an impairment loss is recognised in Statement of Comprehensive Income in the period.

Functional currency

The functional and presentational currency of the company is the United States dollar as the majority of the company's operating transactions and funding is denominated in United States dollars.

Foreign currency transactions and balances

Transactions in foreign currencies are recorded using a monthly average operating exchange rate. Monetary assets and liabilities denominated in foreign currencies are translated using the exchange rate ruling at the balance sheet date. The gains or losses arising are included in the Statement of Comprehensive Income.

IGE USA Holdings

Notes to the Financial Statements

3 Critical accounting judgments and key sources of estimation uncertainty

The preparation of the financial statements requires the directors to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Although these estimates are based on the directors' best knowledge of the amount, actual results ultimately may differ from those estimates. The areas involving a higher degree of judgment and complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed below:

Impairment of investments

The principal activity of the company is to act as a holding company for underlying subsidiaries. As a result the main risk facing the company is the underlying trade of the investments not supporting the carrying value.

Investments are subject to impairment when there are indicators, such as, the net assets of the underlying company being less than the carrying value of the investments, adverse trade conditions in the underlying investments, cessation of trade in the underlying investments, significant losses in the year in the underlying investments and impairment of fixed assets in the underlying investments in the year.

Where the carrying value exceeds the estimated recoverable amount (being the greater of fair value less costs of disposal and value-in-use), an impairment loss is recognised by writing down the investments to its recoverable amount. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted. The estimates of future cash flows exclude cash inflows or outflows attributable to financing activities and income tax. Impairment losses arising in respect of investments are not reversed once recognised.

4 Operating loss

Operating loss is stated after crediting:
