Strategic Report

Principal activities

HSBC Overseas Holdings (UK) Limited ('the Company') is domiciled and incorporated in England and Wales as a private company, limited by shares. Its trading address is 8 Canada Square, London E14 5HQ, United Kingdom.

During the year ended 31 December 2019, HSBC Overseas Holdings (UK) Limited continued to be an investment holding company.

Review of the Company's business

The business is funded principally by its parent, HSBC Holdings plc.

The reserves available for distribution as at 31 December 2019 were \$4,845m (2018: \$7,227m).

Performance

The performance and position of the Company for the year ended 31 December 2019 and the state of the Company's financial affairs at that date are set out on pages 7 to 27.

The results of the Company show a loss before tax of \$1,932m for the year (2018: \$2,647m profit before tax). This is primarily due to recognition of \$2,615m impairment in the investment of HSBC North America Holdings Inc. during the year (Note 14).

The Company received the following dividends from other group undertakings:

	2019 \$'000	2018 \$'000
Dividends from ordinary shares		
HSBC Global Services (China) Holdings Limited	–	577,564
HSBC Software Development (Guangdong) Limited	149,855	–
HSBC Bank Bermuda	194,000	–
HSBC Bank Canada	322,416	51,937
	666,271	629,501
Dividends from preference shares		
HSBC North America Holdings Inc.	141,532	226,456
HSBC Bank Canada	30,165	17,089
	171,697	243,545

Section 172 statement

Section 172 of the Companies Act 2006 requires a director of a company to act in the way he or she considers, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole. In doing this, section 172 requires a director to have regard, amongst other matters, to: the likely consequences of any decision in the long term; the interests of the company's employees; the need to foster the company's business relationships with suppliers, customers and others; the impact of the company's operations on the community and the environment; the desirability of the company maintaining a reputation for high standards of business conduct; and the need to act fairly as between members of the company.

As a Group, HSBC considers its stakeholders to be the people who work for us, bank with us, own us, regulate us and live in the societies we serve. The Board recognises that building strong relationships with our stakeholders will help us to deliver our strategy in line with our long-term values, and operate the business in a sustainable way.

As a non-trading, intermediate investment company, the principal stakeholder of the Company is the Company's parent entity. The Company made two types of principal decision during the year. The first was the declaration of dividends. In making the decisions, the Board took into consideration the profits available for distribution, the dividend policy, the capital position, the long term interests of the Company and the interests of the Group as a whole. The second type of principal decision taken by the Company during the year was the subscription of additional preference shares in the Company's subsidiary, HSBC Bank Canada (HBCA), in order to maintain appropriate levels of capital to support the business strategy and to meet its regulatory and internal requirements. The subscription was funded by the issue of preference shares by the Company to its shareholder. In making the decision, the Board took into consideration the capital position, the long-term interests of the Company and the interests of the Group as a whole.

Stakeholder engagement

The Board understands the importance of effective engagement with all of its stakeholders to the long-term success of the Company. For further information on the Company's key stakeholders and the manner in which the Board takes their interests into consideration when making decisions, see the section 172 statement, above.

Key performance indicators

As the Company is managed as part of a global bank, there are no key performance indicators that are specific to the Company. The key performance indicators are included in the annual report of HSBC Holdings plc. Ongoing review of the performance of the Company is carried out by monitoring the subsidiary performance, including cash flows from and to each subsidiary.

HSBC Overseas Holdings (UK) Limited

Principal risks and uncertainties

The financial risk management objectives and policies of the Company, together with an analysis of the exposure to such risks are set out in Note 21 on the financial statements.

Being an investment holding company, the Company is also subject to the risks of the performance of its subsidiaries which could result in impairment of these investments. The Company's accounting policy for impairment of investments in subsidiaries is set out in Note 1.2 on the Financial Statements.

The Company's exposures to credit, liquidity and market risks (including foreign currency risks and interest rate risk) are limited due to the nature of its business, which includes investing in or financing of subsidiaries.

These transactions are generally funded by way of capital or debt obtained from the parent or other group companies.

COVID-19 event has been covered separately under "Significant events since the end of the financial year" section within the Report of the Directors.

On behalf of the Board

Report of the Directors

Directors

The Directors of the Company who were in office during the year and up to the date of signing the financial statements were as follows:

Name	Appointed	Resigned
G A Francis	1 September 2014	
R J Hennity	30 September 2011	31 March 2020
I F MacKinnon	16 September 2011	

The Articles of Association of the Company contain a qualifying third-party indemnity provision, which entitles Directors and other officers to be indemnified out of the assets of the Company against claims from third parties in respect of certain liabilities arising in connection with the performance of their functions, in accordance with the provisions of the UK Companies Act 2006. Indemnity provisions of this nature have been in place during the financial year and up to the date of approval of the financial statements but have not been utilised by the Directors. Additionally, all Directors have the benefit of Directors' and officers' liability insurance.

Dividends

Dividends of \$453m were declared and paid during the year (2018: \$1,705m).

Significant events since the end of the financial year

The Company received dividends of \$139m from HSBC Bank Canada, \$34m from HSBC Bermuda Bank Limited and \$70m from HSBC North America Holdings Inc. in 2020.

The Company declared and paid a dividend of \$2m in March 2020 to HSBC Holdings plc.

In March 2020, the Company received a CET1 capital injection of \$353m (CAD500m) from HSBC Holdings plc which was subsequently invested in HSBC Bank Canada. This investment ensures an adequate capital level is maintained in HSBC Bank Canada.

Since early January 2020, the COVID-19 outbreak has spread across the globe and has been classified by the World Health Organisation as a Pandemic. This is causing ongoing disruption to business and economic activity, and is resulting in substantial and substantive government and central banks relief actions and support measures in many countries to protect the economy.

An assessment of the potential financial impact of COVID-19 on the Company has been carried out. It was concluded that the Company had sufficient cash resources to meet its obligations as they fall due for a period of at least 12 months from the date of this report considering cash received on investments post the balance sheet date. The Company's investments remain well capitalised and the carrying values are supported by expected cash flows. This will not be impacted by COVID-19 situation. There is no material adverse effect on the Company's financial condition or liquidity, presently, or within future projections based on currently available information. Management will continue to monitor the situation closely, including the potential impact on the Company's financial performance.

No other significant events affecting the Company have occurred since the end of the financial year.

Future developments

No change in the Company's activities is expected.

Going concern basis

The financial statements are prepared on a going concern basis, as the Directors are satisfied that the Company has the resources to continue in business for the foreseeable future. In making this assessment, the Directors have considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources.

Since early January 2020, the COVID-19 outbreak has spread across the globe and has been classified by the World Health Organisation as a Pandemic. This is causing ongoing disruption to business and economic activity, and is resulting in substantial and substantive government and central banks relief actions and support measures in many countries to protect the economy.

The Company's investments remain well capitalised and the carrying values are supported by expected cash flows. This will not be impacted by COVID-19 situation. There is no material adverse effect on the Company's financial condition or liquidity, presently, or within future projections based on currently available information. Management will continue to monitor the situation closely, including the potential impact on the Company's financial performance.

Financial risk management

The financial risk management objectives and policies of the Company, together with an analysis of the exposure to such risks, are set out in Note 21 of the Notes on the financial statements.

Capital management

The Company is not subject to externally imposed capital requirements and is dependent on the HSBC Group to provide necessary capital resources which are therefore managed on a group basis.

HSBC Overseas Holdings (UK) Limited

The Company defines capital as total shareholders' equity. It is HSBC's objective to maintain a strong capital base to support the development of its business and to meet regulatory capital requirements at all times. There were no changes to the Company's approach to capital management during the year.

Corporate governance statement

The Company is, together with the wider HSBC Group, committed to high standards of corporate governance. The HSBC Group has a comprehensive range of principles, policies and procedures influenced by the UK Corporate Governance Code with requirements in respect of Board independence, composition and effectiveness to ensure that the Group is well managed, with appropriate oversight and control. These governance requirements surpass those of the alternative governance codes, as such the Company did not apply any specific corporate governance code during the financial year.

During the year, the Company complied with all of HSBC's corporate governance principles, policies and procedures.

Independent auditors

Pursuant to section 487 of the Companies Act 2006, the auditors will be deemed to be reappointed and PricewaterhouseCoopers LLP ('PwC') will therefore continue in office.

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable IFRSs as adopted by the European Union have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

Directors' confirmations

In the case of each director in office at the date the Directors' Report is approved:

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Independent auditors' report to the members of HSBC Overseas Holdings (UK) Limited

Report on the audit of the financial statements

Opinion

In our opinion, HSBC Overseas Holdings (UK) Limited's financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2019 and of its loss and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the balance sheet as at 31 December 2019; the income statement, the statement of comprehensive income, the statement of cash flows, the statement of changes in equity for the year then ended 31 December 2019; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis of opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Report of the Directors, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Strategic Report and Report of the Directors

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Report of the Directors for the year ended 31 December 2019 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Report of the Directors.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the Company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Financial assets at FVOCI reserve

Reserve is not distributable as it is not readily realisable.

Dividend per share

Dividend per ordinary share issued for the year was \$0.4m (2018: \$12.7m).

Other equity instruments

Company issued AT1 compliant preference shares to HSBC Holdings plc.

Equity is wholly attributable to equity shareholders of HSBC Overseas Holdings (UK) Limited.

The accompanying notes on pages 12 to 27 form an integral part of these financial statements.

Notes on the financial statements

1 Basis of preparation and significant accounting policies

The financial statements of the Company have been prepared in accordance with the Companies Act 2006 as applicable to companies using International Financial Reporting Standards ('IFRSs'). The principal accounting policies applied in the preparation of these financial statements have been consistently applied to all of the years presented, unless otherwise stated.

1.1 Basis of preparation

(a) Compliance with International Financial Reporting Standards

The financial statements of the Company have been prepared in accordance with IFRSs as issued by the International Accounting Standards Board ('IASB'), including interpretations issued by the IFRS Interpretations Committee, and as endorsed by the European Union ('EU').

At 31 December 2019, there were no unendorsed standards effective for the year ended 31 December 2019 affecting these financial statements, and the Company's application of IFRSs results in no differences between IFRSs as issued by the IASB and IFRSs as endorsed by the EU.

Standards adopted during the year ended 31 December 2019

IFRS 16 'Leases'

On 1 January 2019, Company adopted the requirements of IFRS 16 retrospectively. The Company does not hold any leases and therefore, there was no impact on the Company financial statements from the adoption of this this standard.

Interest Rate Benchmark Reform: Amendments to IFRS 9 and IAS 39 'Financial Instruments'

Amendments to IFRS 9 and IAS 39 issued in September 2019 modify specific hedge accounting requirements so that entities apply those hedge accounting requirements assuming that the interest rate benchmark on which the hedged cash flows and cash flows of the hedging instrument are based is not altered as a result of interest rate benchmark reform.

These amendments apply from 1 January 2020 with early adoption permitted. HSBC Holdings plc (ultimate parent company) has adopted the amendments that apply to IAS 39 from 1 January 2019 and has made the additional disclosures as required by the amendments.

The Company does not carry out hedge accounting and there was no impact on the financial statements from the adoption of this standard.

(b) Future accounting developments

Minor amendments to IFRSs

The IASB published a number of minor amendments to IFRSs which are effective from 1 January 2020, some of which have been endorsed for use in the EU. The Company expects they will have an insignificant effect, when adopted, on the financial statements of the Company.

Major new IFRSs

IFRS 17 'Insurance Contracts'

The IASB has published IFRS 17 'Insurance Contracts'. IFRS 17 has not yet been endorsed but as the Company holds no insurance contracts, there will be no impact on the Company financial statements from the adoption of this standard.

There are no other new IFRSs published by the IASB effective from 1 January 2020 that will have an impact on the financial statements of the Company.

(c) Foreign currencies

The functional currency of the Company is US dollars, which is also the presentational currency of the financial statements of the Company. Unless otherwise specified, all \$ symbols represent US dollars.

Transactions in foreign currencies are recorded at the rate of exchange on the date of the transaction. Assets and liabilities denominated in foreign currencies are translated at the rate of exchange at the balance sheet date except non-monetary assets and liabilities measured at historical cost, which are translated using the rate of exchange at the initial transaction date. Exchange differences are included in other comprehensive income or in the income statement depending on where the gain or loss on the underlying item is recognised.

(d) Presentation of information

The financial statements have been prepared on the historical cost basis, modified by the revaluation of financial assets designated at fair value.

All amounts have been rounded to the nearest thousand unless otherwise stated.

The financial statements present information about the Company as an individual undertaking and not about its group. The Company is not required to prepare consolidated financial statements by virtue of the exemption conferred by section 400 of the Companies Act 2006.

(e) Critical accounting estimates and judgements

The preparation of financial information requires the use of estimates and judgements about future conditions. In view of the inherent uncertainties and the high level of subjectivity involved in the recognition or measurement of items, highlighted as the 'critical accounting estimates and judgements' in section 1.2 to follow, it is possible that the outcomes in the next financial year could differ from those on which management's estimates are based. This could result in materially different conclusions from those reached by management for the purposes of these financial statements.

Management's selection of the Company's accounting policies which contain critical estimates and judgements reflects the materiality of the items to which the policies are applied and the high degree of judgement and estimation uncertainty involved.

(f) Going concern

The financial statements are prepared on a going concern basis, as the Directors are satisfied that the Company has the resources to continue in business for the foreseeable future. In making this assessment, the Directors have considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources.

Since early January 2020, the COVID-19 outbreak has spread across the globe and has been classified by the World Health Organisation as a Pandemic. This is causing ongoing disruption to business and economic activity, and is resulting in substantial and substantive government and central banks relief actions and support measures in many countries to protect the economy.

An assessment of the potential financial impact of COVID-19 on the Company has been carried out. It was concluded that the Company had sufficient cash resources to meet its obligations as they fall due for a period of at least 12 months from the date of this report considering cash received on investments post the balance sheet date. The Company's investments remain well capitalised and the carrying values are supported by expected cash flows. This will not be impacted by COVID-19 situation. There is no material adverse effect on the Company's financial condition or liquidity, presently, or within future projections based on currently available information. Management will continue to monitor the situation closely, including the potential impact on the Company's financial performance.

1.2 Summary of significant accounting policies

(a) Income and expense

Interest income and expense

Interest income and expense for all financial instruments, excluding those classified as held for trading or designated at fair value are recognised in 'Interest income' and 'Interest expense' in the income statement using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument or, where appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability.

Interest on impaired financial assets is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Non-interest income and expense

Dividend income At 30 June 2019, the Company changed its accounting practice on the recognition of dividends, to recognise them on the date of payment rather than the date of declaration, in line with generally accepted accounting practice. Prior periods have not been restated as all the relevant amounts are appropriately disclosed and there is no difference to the balances reported due to the change in the accounting practice.

(b) Investments in subsidiaries

The Company classifies investments in entities which it controls as subsidiaries. For the purpose of determining this classification, the Company is considered to have control of an entity when it is exposed, or has rights to variable returns from its involvements with the entity and has the ability to affect those returns through its power over the entity.

The Company's investments in subsidiaries are stated at cost less impairment losses.

Critical accounting estimates and judgements

Investments in subsidiaries are tested for impairment when there is an indication that the investment may be impaired, which involves estimations of value in use reflecting management's best estimate of the future cash flows of the investment and the rates used to discount these cash flows, both of which are subject to uncertain factors as follows:

Judgements	Estimates
<ul style="list-style-type: none"> The accuracy of forecast cash flows is subject to a high degree of uncertainty in volatile market conditions. Where such circumstances are determined to exist, management re-tests for impairment more frequently than once a year when indicators of impairment exist. This ensures that the assumptions on which the cash flow forecasts are based continue to reflect current market conditions and management's best estimate of future business prospects 	<ul style="list-style-type: none"> The future cash flows of each investment are sensitive to the cash flows projected for the periods for which detailed forecasts are available and to assumptions regarding the long-term pattern of sustainable cash flows thereafter. Forecasts are compared with actual performance and verifiable economic data, but they reflect management's view of future business prospects at the time of the assessment The rates used to discount future expected cash flows can have a significant effect on their valuation, and are based on the costs of capital assigned to the investment. The cost of capital percentage is generally derived from a capital asset pricing model, which incorporates inputs reflecting a number of financial and economic variables, including the risk-free interest rate in the country concerned and a premium for the risk of the business being evaluated. These variables are subject to fluctuations in external market rates and economic conditions beyond management's control Key assumptions used in estimating impairment in subsidiaries are described in Note 14

(c) Valuation of financial instruments

All financial instruments are initially recognised at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of a financial instrument on initial recognition is generally its transaction price (that is, the fair value of the consideration given or received). However, if there is a difference between the transaction price and the fair value of financial instruments whose fair value is based on a quoted price in an active market or a valuation technique that uses only data from observable markets, the Company recognises the difference as a trading gain or loss at inception (a 'day 1 gain or loss'). In all other cases, the entire day 1 gain or loss is deferred and recognised in the income statement over the life of the transaction either until the transaction matures or is closed out and the valuation inputs become observable or the Company enters into an offsetting transaction.

The fair value of financial instruments is generally measured on an individual basis. However, in cases where the Company manages a group of financial assets and liabilities according to its net market or credit risk exposure, the fair value of the group of financial instruments is measured on a net basis but the underlying financial assets and liabilities are presented separately in the financial statements, unless they satisfy the IFRS offsetting criteria.

(d) Financial instruments measured at amortised cost

Loans and advances to other group undertakings

Loans and advances to other group undertakings are those that have not been classified either as held-for-trading or designated at fair value. These loans are recognised when cash is advanced and are derecognised when the undertakings repay their obligations, or the loans are sold or written off, or substantially all the risks and rewards of ownership are transferred. They are initially recorded at fair value plus any directly attributable transaction costs and are subsequently measured at amortised cost using the effective interest method, less impairment losses.

Loans from other group undertakings

Loans from other group undertakings are recognised when cash is advanced or contractual arrangements are entered into, which is generally on the trade date. These liabilities are initially measured at fair value less directly attributable transaction costs. The Company derecognises the financial liability when the Company obligations specified in the contract expire, are discharged or cancelled. Subsequent to initial recognition, financial liabilities are measured at amortised cost using the effective interest rate method.

Financial liabilities

Amounts owed to other group undertakings represent financial liabilities and are included within trade and other payables. Financial liabilities are initially measured at fair value less any transaction costs that are directly attributable to the purchase or issue. Financial liabilities are recognised when the Company becomes party to the contractual provision of the instrument. The Company derecognises the financial liability when the Company's obligations specified in the contract expire, are discharged or cancelled. Subsequent to initial recognition, financial liabilities are measured at amortised cost using the effective interest rate method.

(e) Equity securities measured at fair value with fair value movement presented in OCI

The equity securities for which fair value movements are shown in other comprehensive income are business facilitation and other similar investments where the Company holds the investments other than to generate a capital return. Gains or losses on the derecognition of these equity securities are not transferred to profit or loss. Otherwise equity securities are measured at fair value through profit or loss (except for dividend income which is recognised in profit or loss).

(f) Impairment of amortised cost and FVOCI financial assets

Expected credit losses ('ECL') are recognised for loans and advances to other group undertakings and other financial assets held at amortised cost. At initial recognition, allowance is required for ECL resulting from default events that are possible within the next 12 months, or less, where the remaining life is less than 12 months ('12-month ECL'). In the event of a significant increase in credit risk, allowance (or provision) is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL'). Financial assets where 12-month ECL is recognised are considered to be 'stage 1'; financial assets that are considered to have experienced a significant increase in credit risk are in 'stage 2'; and financial assets for which there is objective evidence of impairment so are considered to be in default or otherwise credit impaired are in 'stage 3'.

All of the Company's exposures are with other HSBC group undertakings. An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting period by considering the change in the group company's customer risk rating ('CRR'). The CRR of group companies have been virtually the same over the past few years, therefore the exposures are in stage 1. No ECL is recognised as no loss was expected for HSBC group undertakings.

(g) Financial assets designated and otherwise mandatorily measured at fair value through profit or loss

Loans and advances are classified in this category if they meet one or more of the criteria set out below, and are so designated irrevocably at inception:

- where the contractual cash flows of the asset fail Solely Payments of Principal and Interest;
- the use of the designation removes or significantly reduces an accounting mismatch;

Designated loans and advances assets are recognised when the Company enters into contracts with counterparties, which is generally on trade date, and are normally derecognised when the rights to the cash flows expire or are transferred. Designated loans and advances liabilities are recognised when the Company enters into contracts with counterparties, which is generally on settlement date, and are normally derecognised when extinguished. Subsequent changes in fair values are recognised in the income statement in 'Changes in fair value of other financial instruments mandatorily measured at fair value through profit or loss' or 'Net income from financial instruments held for trading or managed on a fair value basis'.

HSBC Overseas Holdings (UK) Limited

(h) Tax

Income tax comprises current tax and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case the tax is recognised in the same statement in which the related item appears.

Current tax is the tax expected to be payable on the taxable profit for the year and on any adjustment to tax payable in respect of previous years. The Company provides for potential current tax liabilities that may arise on the basis of the amounts expected to be paid to the tax authorities.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the balance sheet, and the amounts attributed to such assets and liabilities for tax purposes. Deferred tax is calculated using the tax rates expected to apply in the periods as the assets will be realised or the liabilities settled.

Current and deferred tax are calculated based on tax rates and laws enacted, or substantively enacted, by the balance sheet date.

(i) Provisions, contingent liabilities and guarantees

Provisions

Provisions are recognised when it is probable that an outflow of economic benefits will be required to settle a present legal or constructive obligation that has arisen as a result of past events and for which a reliable estimate can be made.

Contingent liabilities, contractual commitments and guarantees

Contingent liabilities

Contingent liabilities, which include certain guarantees and letters of credit pledged as collateral security, and contingent liabilities related to legal proceedings or regulatory matters, are not recognised in the financial statements but are disclosed unless the probability of settlement is remote.

(j) Called up share capital

Financial instruments issued are generally classified as equity when there is no contractual obligation to transfer cash or other financial assets. Incremental costs directly attributable to the issue of equity instruments are shown in equity as a deduction from the proceeds, net of tax.

(k) Cash and cash equivalents

Cash and cash equivalents include highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Such investments are normally those with less than three months' maturity from the date of acquisition.

2 Net income from financial instruments measured at fair value through profit or loss

	2019	2018
	\$'000	\$'000
Net (expense)/income arising on:		
Changes in own credit spread on long-term debt	(218,270)	(93,294)
Other changes in fair value	(547,766)	(124,424)
Changes in fair value of long-term debt	(766,036)	(217,718)
Changes in fair value of other financial instruments mandatorily measured at fair value through profit or loss	959,628	294,378
Year ended 31 Dec	193,592	76,660

3 Net income/(loss) from financial instruments held for trading or managed on a fair value basis

	2019	2018
	\$'000	\$'000
Foreign exchange gain/(loss)	1,225	(485)
Total other operating expenses	1,225	(485)

4 Employee compensation and benefits

The Company has no employees and hence no staff costs (2018: nil).

5 Directors' emoluments

None of the Directors of the Company received any emoluments in respect of their services as Directors of the Company (2018: nil). The Directors are employed by other companies within the HSBC Group and consider that their services to the Company are incidental to their other responsibilities within the HSBC Group.

HSBC Overseas Holdings (UK) Limited

6 Auditors' remuneration

Certain expenses including auditors' remuneration have been borne by HSBC Holdings plc and are therefore not charged in arriving at profit before tax. Audit fees are disclosed in the financial statements of HSBC Holdings plc. The amount incurred in respect of the audit of these financial statements was \$35k (2018: \$19k).

There were no other audit procedures, tax and non-audit services provided where fees were incurred during the year (2018: nil).

7 Tax

Tax credit

	2019 \$'000	2018 \$'000
Current tax		
- For this year	(39,094)	(48,569)
- Adjustments in respect of prior years	-	(33)
Overseas tax		
- For this year	28,126	6,219
Total current tax	(10,968)	(42,383)
Deferred tax		
- For this year	9,059	6,996
- Effects of changes in tax rates	(954)	(736)
Total deferred tax	8,105	6,260
Year ended 31 Dec	(2,863)	(36,123)

The UK corporation tax rate applying to the Company was 19.00% (2018: 19.00%).

A reduction in the main rate of UK corporation tax to 17% with effect from 1 April 2020 was enacted in the Finance (No2) Act 2016 on 6 September 2016. However, in the UK budget on 11 March 2020, it was announced that the cut in the tax rate to 17% will not occur and the UK Corporation Tax Rate will instead remain at 19%. As this was not substantively enacted by the balance sheet date, deferred tax balances as at 31 December 2019 continue to reflect the planned rate reduction. If the deferred tax liability as at 31 December 2019 were re-measured at 19% it would increase by \$1,689,955.

Tax reconciliation

	2019		2018	
	\$'000	(%)	\$'000	(%)
(Loss)/profit before tax	(1,932,111)		2,647,100	
Tax at 19.00% (2018: 19.00%)	(367,101)	19.00	502,949	19.00
Adjustment in respect of prior years	-	-	(33)	-
Expenses not deductible	496,850	(25.72)	(378,100)	(14.28)
Non-taxable income and gains	(159,214)	8.24	(165,879)	(6.27)
Tax rate change	(954)	0.05	(736)	(0.03)
Effects of overseas tax rules	27,556	(1.43)	5,676	0.21
Local taxes and overseas withholding taxes	-	-	-	-
Year ended 31 Dec	(2,863)	0.14	(36,123)	(1.37)

8 Deferred tax

The following table shows the net deferred tax liabilities recognised in the balance sheet and the related amounts recognised in the income statement:

	2019 \$'000	2018 \$'000
At 1 Jan	6,260	-
Income statement charge	8,105	6,260
At 31 Dec	14,365	6,260

Net deferred tax liabilities exist in relation to the fair value gains and losses from loans and advances designated at fair value, which comprises a gross deferred tax liabilities of \$115m and gross deferred tax asset of \$101m.

9 Reconciliation of (loss)/profit before tax to net cash flow from operating activities

	2019 \$'000	2018 \$'000
Non-cash item included in profit and loss		
Reversal of impairment of subsidiaries	–	(1,990,000)

11 Fair value of financial instruments not carried at fair value

Fair value hierarchy

Fair values of financial assets and liabilities are determined according to the following hierarchy:

(a) Level 1 - valuation technique using quoted market price: financial instruments with quoted prices for identical instruments in active markets that HSBC can access at the measurement date.

(b) Level 2 - valuation technique using observable inputs: financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

(c) Level 3 - valuation technique with significant unobservable inputs: financial instruments valued using valuation techniques where one or more significant inputs are unobservable.

Fair values at the balance sheet date of the assets and liabilities set out below are estimated for the purpose of disclosure as follows:

	Fair values				
	Carrying amount	Valuation techniques			Total
		Quoted price	Using observable	With significant	
			Level 1	Level 2	
\$'000	\$'000	\$'000	\$'000	\$'000	
At 31 Dec 2019					
Liabilities					
Loans from other group undertakings	6,372,505	—	6,553,612	—	6,553,612

	Fair values				
	Carrying amount	Valuation techniques			Total
		Quoted price	Using observable	With significant	
			Level 1	Level 2	
\$'000	\$'000	\$'000	\$'000	\$'000	
At 31 Dec 2018					
Liabilities					
Loans from other group undertakings	8,191,884	—	8,369,878	—	8,369,878

12 Financial assets designated and otherwise mandatorily measured at fair value through profit or loss

	Nominal interest rate	Maturity date	Nominal value	2019	2018
	%			\$'000	\$'000
HSBC North America Holdings Inc.	4.115	25/05/2023	2,000,000	2,059,330	2,043,443
HSBC North America Holdings Inc.	4.950	12/09/2027	2,000,000	2,244,103	2,071,192
HSBC North America Holdings Inc.	4.225	08/03/2023	1,500,000	1,540,008	1,549,800
HSBC North America Holdings Inc.	4.968	08/03/2028	1,500,000	1,692,170	1,532,779
HSBC North America Holdings Inc.	LIBOR +1.45	30/10/2025	1,000,000	1,019,050	1,008,781
HSBC North America Holdings Inc.	LIBOR +1.68	21/12/2027	1,000,000	1,022,950	1,007,344
HSBC North America Holdings Inc.	LIBOR +1.96	12/09/2027	1,000,000	1,056,903	1,017,658
HSBC North America Holdings Inc.	LIBOR +1.45	27/05/2025	850,000	856,340	858,363
HSBC Bank Canada	CDOR +1.92	05/12/2028	770,505	806,663	757,522
At 31 December¹			11,620,505	12,297,517	11,846,882

¹ The Company changed its recognition of accrued interest receivable during the year from 'Financial assets designated and otherwise mandatorily measured at fair value through profit or loss' to 'Prepayments, accrued income and other assets'. See Note 13 for further details.

The loans are denominated in US dollars and Canadian dollars and the effective interest based in LIBOR and CDOR rates is accrued. The nominal rate is equal to the effective rate of interest as there have been no fees charged on these loans.

The loans are carried at fair value, with any changes from remeasurement to fair value recognised in the income statement (Note 2).

Fair values were determined using valuation techniques with observable inputs (Level 2). The fair values of these loans and advances are estimated using pricing inputs including first call date, nominal yield curve, credit spread and coupon information.

13 Prepayments, accrued income and other assets

	2019 \$'000	2018 \$'000
Amounts due from other group undertakings ¹	151,281	51,473
At 31 Dec	151,281	51,473

¹ 'Amounts due from other group undertakings' include accrued interest receivable amounts. The Company changed its recognition of accrued interest receivable during the year from 'Financial assets designated and otherwise mandatorily measured at fair value' to 'Prepayments, accrued income and other assets'. Prior periods have not been restated as the change is not considered material.

Amounts due from other group undertakings are non-interest bearing and the fair value is not significantly different to the carrying value in the balance sheet as they are short term in nature.

14 Investments in subsidiaries

Movements on investments

	2019 \$'000	2018 \$'000
Cost		
At 1 Jan	46,883,368	48,329,534

Reversal of impairment	—	1,990,000
At 31 Dec	(16,230,377)	(13,615,377)
Net carrying value at 31st Dec	29,041,735	33,267,991

Additions of investments

During the year, the Company purchased 10,000,000 Preference shares in its subsidiary HSBC Bank Canada for a total consideration of \$189m (CAD 250m).

Explanation of other movements

The Company's subsidiary HSBC North America Holdings Inc., distributed \$1,800m as a return of cost of capital during the year.

Impairment testing of investment in subsidiaries

Impairment of investments

The carrying amount of investments in subsidiaries are assessed annually for any indication of impairment. Impairment would be recognised where the recoverable amount of the investment is determined to be less than the carrying amount.

Recoverable amount can be determined either by fair value less costs to sell or value in use.

Fair value less costs to sell

HSBC North America Holdings Inc. ('HNAH')

Due to HSBC Group's ongoing restructuring and near term strategic intentions for HSBC North America Holdings Inc., fair value less costs to sell is considered appropriate in determining recoverable amount at 31 December 2019. Fair value less costs to sell is calculated as \$20,268m, representing the aggregation of estimated fair values of all assets and liabilities held in HNAH. This results in an impairment of \$2,615m at year end.

A reversal of impairment \$1,990m was recognised at 31 December 2018 based on the value in use calculated at that time.

Value in use

The process of identifying and evaluating impairment is inherently uncertain because it requires significant management judgement in making a series of estimations, the results of which are highly sensitive to the assumptions used.

The below process can also be considered in identifying whether an impairment is needed and represents management's best estimate of the factors below:

Nominal long-term growth rate: The long-term growth rate is used to extrapolate the cash flows in perpetuity because of the long-term perspective within the Group of business units making up the subsidiaries. In prior years impairment testing, these growth rates reflected GDP and inflation (nominal GDP) for the countries within which the subsidiary of the Company operates or from which it derives revenue. At 31 December 2019 we considered the extent to which growth rates based on nominal GDP data remained appropriate given the uncertainty in the macroeconomic environment around the world. We anticipate that when global growth does stabilise it will be at a slightly lower level than recent years. As a result, we considered it appropriate to base the long-term growth rate assumption on inflation data, moving away from a higher nominal GDP basis; and

Discount rate: The rate used to discount the cash flows is based on the cost of capital assigned to each subsidiary, which is derived using a Capital Asset Pricing Model ('CAPM'). The CAPM depends on a number of inputs reflecting financial and economic variables including the risk-free rate and a premium to reflect the inherent risk of the business being evaluated. These

HSBC Overseas Holdings (UK) Limited

variables are based on the market's assessment of the economic variables and management's judgement. The discount rates for each subsidiary are refined to reflect the rates of inflation for the countries within which the subsidiaries operate. In addition, for the purposes of testing subsidiaries for impairment, management supplements this process by comparing the discount rates derived using the internally generated CAPM with cost of capital rates produced by external sources for businesses operating in similar markets; and

Management's judgement in estimating the cash flows: The cash flow projections for each subsidiary are sensitive to the cash flows projected for the periods for which detailed forecasts are available, and to assumptions regarding the long-term pattern of sustainable cash flows thereafter. Forecasts are compared with actual performance and verifiable economic data in future years; however, the cash flow forecasts necessarily and appropriately reflect management's view of future business prospects at the time of the assessment.

When this exercise demonstrates that the expected cash flows of a subsidiary have declined and/or that its cost of capital has increased, the effect is to reduce the subsidiary's estimated recoverable amount. If this is lower than the carrying value of the subsidiary, a charge for impairment will be recognised in the Company income statement for the year. The accuracy of forecast cash flows is subject to a high degree of uncertainty in volatile market conditions. In the event of a significant deterioration in economic and credit conditions compared with those reflected by management in the cash flow forecasts for the subsidiaries, a material adjustment to a subsidiary's recoverable amount may occur which may result in the recognition of an impairment charge in the income statement.

HSBC Bank Canada

HSBC Bank Canada provides banking and financial services. A comparison of carrying amount of \$7,162m (2018: \$6,973m) to value in use of \$8,126m (2018: \$11,586m), calculated using a discount rate of 8.90% (2018: 9.40%) and a growth rate of 1.92% (2018: 3.92%), did not result in an impairment charge.

Key assumptions	Change in assumption	Impact on value in use - loss
Discount rate	+ 100 basis points	\$1,021m
Nominal growth rate	- 100 basis points	\$811m

HSBC Bank Bermuda Limited

HSBC Bank Bermuda Limited provides banking and financial services. A comparison of carrying amount of \$1,202m (2018: \$1,202m) to value in use of \$1,304m (2018: \$1,988m), calculated using a discount rate of 9.2% (2018: 13.1%) and a growth rate of 1.67% (2018: 6.28%), did not result in an impairment charge.

Key assumptions	Change in assumption	Impact on value in use - loss
Discount rate	+ 100 basis points	\$150m
Nominal growth rate	- 100 basis points	\$112m

The principal subsidiary undertakings of the Company as at 31 December 2019 and 31 December 2018 are set out below.

	Country of incorporation	Interest in equity capital (%)	Share class
HSBC North America Holdings Inc.	USA	100.00	Ordinary shares Preferred shares

Accrued interest payable ²			—	55,562
At 31 Dec			6,372,505	8,191,884

¹ The Company utilised \$1,800m cash received from HSBC North America Holdings Inc. to partially repay the \$2,400m loan to HSBC Holdings plc.

² The Company changed its recognition of 'Accrued interest payable' during the year from 'Loans from other group undertakings' to 'Accruals, deferred income and other liabilities'. See Note 17 for further details.

HSBC Overseas Holdings (UK) Limited

The loans are denominated in US dollars and Canadian dollars and the effective interest based on US dollar LIBOR or CDOR is accrued. The loans are carried at amortised cost. The nominal rate is equal to the effective rate of interest as there have been no fees charged on these loans.

16 Financial liabilities designated at fair value

	Nominal interest rate	Maturity date	Nominal value	2019	2018
	%		\$'000	\$'000	\$'000
HSBC Holdings plc	4.115	25/05/2023	2,000,000	2,059,330	2,043,443
HSBC Holdings plc	4.95	12/09/2027	2,000,000	2,244,103	2,068,043

HSBC Holdings plc	4.968	08/03/2028	1,500,000	1,692,170	1,549,243
HSBC Holdings plc	LIBOR +1.96	12/09/2027	1,000,000	1,056,903	1,017,658
At 31 December ¹			8,000,000	8,592,514	8,214,872

¹ The Company changed its recognition of accrued interest payable during the year from 'Loans from other group undertakings designated at fair value' to 'Accruals, deferred income and other liabilities'. See Note 17 for further details.

The loans are denominated in US dollars and the effective interest based on LIBOR is accrued. The nominal rate is equal to the effective rate of interest as there have been no fees charged on these loans.

The loans are carried at fair value, with any changes from remeasurement to fair value recognised in the income statement (Note 2).

Fair values were determined using valuation techniques with observable inputs (Level 2). The fair values of these loans and advances are estimated using pricing inputs including first call date, nominal yield curve, credit spread and coupon information.

17 Accruals, deferred income and other liabilities

	2019	2018
	\$'000	\$'000
Amounts owed to other group undertakings ¹	110,457	—
At 31 Dec	110,457	—

¹ 'Amounts owed to other group undertakings' include accrued interest payable amounts. The Company changed its recognition of accrued interest payable during the year from 'Loans from other group undertakings' and 'Financial liabilities designated at fair value to 'Accruals, deferred income and other liabilities'. Prior periods have not been restated as the change is not considered material

Amounts due to other group undertakings are non-interest bearing amounts and repayable on demand.

The fair value of the amounts due to other group undertakings is not significantly different to the carrying value in the balance sheet as they are short term in nature.

18 Maturity analysis of assets and liabilities

Balance as at 31 Dec		1,130	1	1

Called up share capital is \$1,486 (2018 : \$1,486).

During 2019 no new ordinary shares were issued (2018 : \$1,284).

Other equity instruments

HSBC Overseas Holdings (UK) Limited Additional Tier 1 instruments

	2019 \$'000	2018 \$'000
CAD250m Additional Tier1 compliant preference shares	188,743	—
At 31 Dec	188,743	—

During the year, the Company issued 10,000,000 Preference shares to HSBC Holding plc for a total consideration of \$189m (CAD 250m).

20 Contingent liabilities, contractual commitments and guarantees

As a part of the acquisition of HSBC Insurance (Bermuda) Limited the Company become liable for the unpaid share premium of \$216m (2018: \$216m) that can be called upon at the discretion of HSBC Insurance (Bermuda) Limited.

There were no other contingent liabilities at 31 December 2019 (2018: nil).

21 Management of financial risk

Systems and procedures are in place in the HSBC Group to identify, control and report on the major risks associated with financial instruments which include credit, liquidity and market risk. A Risk Management Meeting of the Group Management Board, chaired by the Group Chief Risk Officer, is held each month to address asset, liability and risk management issues for the HSBC Group. Exposure to these risks is monitored by HSBC Holdings plc's Asset and Liability Committee.

Credit risk management

Credit risk is the risk of financial loss if a customer or counterparty of the Company fails to meet a payment obligation under a contract.

Credit risk is managed within the overall framework of HSBC policy, with an established risk management process encompassing credit approvals, the control of exposures (including those to borrowers in financial difficulty), credit policy direction to business units and the monitoring and reporting of exposures both on an individual and portfolio basis. The Directors are responsible for the quality of credit portfolios and follow a credit process involving delegated approval authorities and credit procedures, the objective of which is to build and maintain risk assets of high quality.

HSBC Overseas Holdings (UK) Limited

Regular reviews are undertaken to assess and evaluate levels of risk concentration, including those to individual industry sectors and products. Credit risk is managed at a group level by business sector, rather than in respect of individual undertakings and it is therefore not considered appropriate to disclose quantitative data about exposure to that risk.

The Company exposure to credit risk in relation to cash and cash equivalents and loans and advances to HSBC undertakings designated and otherwise mandatorily measured at fair value relates to group undertakings that are wholly-owned subsidiaries of HSBC Holdings plc. Such counterparties have no history of default and have been able to meet their liabilities as they fall due. On this basis the Company considers the amounts due to be fully recoverable. Credit risk arising from default on other loans is not expected to have a material impact on the Company's net assets.

Maximum exposure to credit risk

The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the balance sheet plus contractual commitments disclosed in Note 20.

	2019		
	Maximum exposure \$'000	Offset \$'000	Net \$'000
Cash and cash equivalents	233,840	—	233,840

Prepayments, accrued income and other assets	51,473	—	51,473
Financial investments	45	—	45
At 31 Dec	11,963,236	—	11,963,236

Liquidity risk management

Liquidity risk is the risk that the Company does not have sufficient financial resources to meet obligations as they fall due or will have access to such resources only at an excessive cost. The risk arises from mismatches in the timing of cash flows.

The Company monitors its cash flow requirements on a monthly basis and will compare expected cash flow obligations with expected cash flow receipts to ensure they are appropriately aligned. In light of this the Company will borrow funds as and when required from group undertakings. The Company also has a line of credit with HSBC Bank plc which can be used for liquidity purposes.

The following is an analysis of undiscounted cash flows payable under various financial liabilities by remaining contractual maturities at the balance sheet date:

	On Demand \$'000	Due within 3 months \$'000	Due between 3-12 months \$'000	Due between 1-5 years \$'000	Due after 5 years \$'000	Total \$'000

Financial liabilities designated at fair value	—	89,417	268,251	4,829,534	5,321,361	10,508,563
At 31 Dec 2019	—	154,353	463,060	6,686,353	11,377,505	18,681,271

	On Demand \$'000	Due within 3 months \$'000	Due between 3-12 months \$'000	Due between 1-5 years \$'000	Due after 5 years \$'000	Total \$'000
Loans from other group undertakings	—	99,435	298,304	3,990,532	6,179,970	10,568,241
Financial liabilities designated at fair value	—	91,639	274,916	4,865,081	5,354,292	10,585,928
At 31 Dec 2018	—	191,074	573,220	8,855,613	11,534,262	21,154,169

Market risk management

Market risk is the risk that movements in market risk factors, including foreign exchange rates and interest rates will reduce income values. Exposure to these risks arises from short-term cash balances and funding positions with other group undertakings. The objective of the Company risk management strategy is to reduce exposure to these risks and minimise volatility

HSBC Overseas Holdings (UK) Limited

in economic income, cash flows and distributable reserves. The principal tool for managing this is sensitivity analysis of changes in profit before tax to future changes in the exchange rates or interest rate.

Foreign exchange risk

The Company is exposed to foreign currency risk on assets and liabilities that are denominated in a currency other than the US dollar.

In respect of monetary assets and liabilities held in currencies other than US Dollars, the Company ensures that the net exposure is kept to an acceptable level, by buying or selling foreign currencies at spot, or forward rates where necessary to address short-term imbalances.

The Company's profit before tax would decrease by \$1.8m and profit after tax \$1.5m (2018: profit before tax decrease by \$1.4m, profit after tax \$1.2m) if the Euros and Canadian dollar foreign exchange rate weakened by 5 per cent relative to the US dollar.

Foreign currency rate sensitivity analysis has been performed on the net assets foreign exchange risk exposure as at the reporting date. An upward/downward movement in the USD: Euro and Canadian dollar rate of 5 per cent has been assumed. If all other variables are held constant, the information above presents the likely impact on the Company's profit.

Interest rate risk

The Company held net liabilities of \$2,518m (2018: \$4,487m) that are sensitive to interest rate movements. If all other variables are held constant the effect of a 100 basis points increase/(decrease) in LIBOR on these net liabilities would be a (decrease)/increase of profit before tax of \$25m (2018: \$45m) and after tax of \$21m (2018: \$36m).

24 Events after the balance sheet date

The Company received dividends of \$139m from HSBC Bank Canada, \$34m from HSBC Bermuda Bank Limited and \$70m from HSBC North America Holdings Inc. in 2020.

The Company declared and paid a dividend of \$2m in March 2020 to HSBC Holdings plc.

In March 2020, the Company received a CET1 capital injection of \$353m (CAD500m) from HSBC Holdings plc which was subsequently invested in HSBC Bank Canada. This investment ensures an adequate capital level is maintained in HSBC Bank Canada.

Since early January 2020, the COVID-19 outbreak has spread across the globe and has been classified by the World Health Organisation as a Pandemic. This is causing ongoing disruption to business and economic activity, and is resulting in substantial and substantive government and central banks relief actions and support measures in many countries to protect the economy.

An assessment of the potential financial impact of COVID-19 on the Company has been carried out, and it was concluded that the Company had sufficient cash resources to meet its obligations as they fall due for a period of at least 12 months from the date of this report. The Company's investments remain well capitalised and the carrying values are supported by expected cash flows. This will not be impacted by COVID-19 situation. There is no material adverse effect on the Company's financial condition or liquidity, presently, or within future projections based on currently available information. Management will continue to monitor the situation closely, including the potential impact on the Company's financial performance.

Management consider the above events after the balances sheet date to be non-adjusting events for the Company.

No other significant events affecting the Company have occurred since the end of the financial year.
