MORGAN STANLEY UK TRADER

STRATEGIC REPORT

The Directors present their Strategic report for Morgan Stanley UK Trader (the "Company") for the year ended 31 December 2019.

PRINCIPAL ACTIVITY

The principal activity of the Company is to act as an intermediate holding company, with no significant changes expected in 2020.

The Company's ultimate parent undertaking and controlling entity is Morgan Stanley, which, together with the Company and Morgan Stanley's other subsidiary undertakings, form the "Morgan Stanley Group". The Company's immediate parent undertaking is MSDW Investment Holdings (US) LLC.

BUSINESS REVIEW

Emergence of COVID-19

The coronavirus disease (COVID-19) pandemic has, and will likely continue to, severely impact global economic conditions, resulting in substantial volatility in the global financial markets and operational challenges. The extent of the impact is highly uncertain and cannot be predicted and could adversely affect the future operations and financial condition of Morgan Stanley and the Company.

Overview of 2019 performance and key performance indicators

The Company's main key performance indicators are profit after tax and total assets.

The Company reported a profit for the year, after tax, of \$32,000, compared to \$18,000 in the prior year. The profit for the current year is attributable to fair value gains on an equity investment in Morgan Stanley Corporate Trader.

The total assets of the Company consist of an equity investment in Morgan Stanley Corporate Trader. The total assets of the Company at 31 December 2019 were \$1,881,000 compared to \$1,849,000 at 31 December 2018 with the \$32,000 increase directly attributable to the increase in the fair value of the investment in equity.

RISK MANAGEMENT

The Directors consider that the Company's key financial risk is the decline in value of its investments in equity. Due to the current financial strength of its investments in equity, the Directors consider that the actual risk the Company is exposed to is minimal.

The Company leverages the risk management policies and procedures of the Morgan Stanley Group. The Company also manages the risk of potential impact on its business (including but not limited to the impact of the United Kingdom's (the "UK") decision to leave the European Union (the "EU")) by maintaining a constant planning dialogue with the wider Morgan Stanley Group.

STRATEGIC REPORT (CONTINUED)

GOING CONCERN

Business risks associated with the uncertain market and economic conditions are being actively monitored and managed by the Morgan Stanley Group and Company. Retaining sufficient capital and liquidity to withstand these market pressures remains central to the Morgan Stanley Group and Company's strategy. The existing and potential effects of COVID-19 on the business of the Morgan Stanley Group and Company have been considered as part of the going concern analysis, including impact on operational capacity, access to liquidity and capital, contractual obligations, other critical accounting judgements and key sources of estimation uncertainty. The Company has access to further Morgan Stanley Group capital and liquidity as required.

Taking the above factors into consideration, the Directors believe it is reasonable to assume that the Company will have access to adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

Section 172 (1) statement

The Directors are aware of their responsibilities to promote the success of the Company in accordance with s172 of the Companies Act 2006. When making decisions, Directors have regard to the interests of stakeholders relevant to the Company, as an intermediate holding company, as well as the need to maintain a reputation for high standards of business conduct and the long term consequences of decisions. They also fulfil their responsibilities through the application of Morgan Stanley Group policies and practices, underpinned by Morgan Stanley's five core values of: Do the right thing, Put clients first, Lead with exceptional ideas, Commit to diversity and inclusion and Give back.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MORGAN STANLEY UK TRADER

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of Morgan Stanley UK Trader (the "Company"):

- give a true and fair view of the state of the Company's affairs as at 31 December 2019 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "*Reduced Disclosure Framework*"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the statement of comprehensive income;
- the statement of changes in equity;
- the statement of financial position;
- the related notes 1 to 10; and
- appendix to the financial statements.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "*Reduced Disclosure Framework*" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the Directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the Directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MORGAN STANLEY UK TRADER (CONTINUED)

Other information

The Directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

Responsibilities of Directors

As explained more fully in the Directors' responsibilities statement, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

MORGAN STANLEY UK TRADER

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2019

2. BASIS OF PREPARATION (CONTINUED)

Critical accounting judgements and sources of estimation uncertainty

No critical judgements have been made in the process of applying the Company's accounting policies that have had a significant effect on the amounts recognised in the financial statements. The Company has not made any key assumptions and there are no other key sources of estimation uncertainty in the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in the next financial year.

The going concern assumption

The Company's business activities, together with the factors likely to affect its future development, performance and position, are reflected in the Business Review section of the Strategic report on page 1.

As set out in the Strategic Report, retaining sufficient liquidity and capital to withstand market pressures remain central to the Morgan Stanley Group's and the Company's strategy.

Taking the above factors into consideration, the Directors believe it is reasonable to assume that the Company will have access to adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Functional currency

Items included in the financial statements are measured and presented in US dollars, the currency of the primary economic environment in which the Company operates.

b. Foreign currencies

Monetary assets and liabilities denominated in currencies other than US dollars are translated into US dollars at the rates ruling at the reporting date. Transactions and non-monetary assets and liabilities denominated in currencies other than US dollars are recorded at the rates prevailing at the dates of the transactions. All translation differences are recognised through the statement of comprehensive income.

c. Financial instruments

Financial assets comprise investments in equity.

Investments in equity are stated at fair value. Dividends and any fair value gains or losses are recognised in the income statement in 'Net gains on investments in equity'.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risk and rewards of ownership of the asset.

d. Income tax

The tax expense represents the sum of the tax currently payable and is calculated based on taxable profit for the year. Taxable profit may differ from profit before taxation as reported in the statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting date.

Finance (No.2) Act 2015 reduced the UK main rate of corporation tax to 17% with effect from 1 April 2020. However, following the UK Budget on 11 March 2020 and subsequent resolutions given statutory effect under the Provisional Collection of Taxes Act 1968, for the financial year 2020 the UK statutory rate is 19%. While this change does not affect the income tax charge for the year, it will affect future periods.

Reconciliation of effective tax rate

The current year income tax result is lower (2018: lower) than that resulting from applying the average standard rate of corporation tax in the UK for the year of 19% (2018: 19%). The main differences are explained below:
