Eleva UCITS Fund

Société d'Investissement à Capital Variable

Management Report

ELEVA European Selection Fund

In 2021, the ELEVA European Selection Fund - Class I (EUR) acc. was up 28.33% vs. the STOXX Europe 600 index (Net Return), up 24.91%, an outperformance of 342 bps. Since inception, the Fund is up 90.85% vs. the index up 57.02%, an outperformance of 3,383 bps.

Sector allocation was slightly negative in 2021, with technology and energy the worst detractors. In the other hand, communication services, consumer staples and materials contributed positively.

Most of the alpha was generated by favorable stock picking, especially in materials, consumer discretionary, industrials and utilities. The selection effect was less favourable in technology, energy, and consumer staples.

Looking at stock specifics, top contributors were a mixture of value winners such as **Stellantis**, **BNP Paribas** and **Anglo American**, “green at a reasonable price” names such as **Veolia** and **Saint-Gobain**, and growth stocks such as **Pernod-Ricard**, **Teleperformance** and **Lonza**.

Regarding detractors, some of these came from the mid-cap space, which underperformed the mega cap index by 700bps last year. Some mid-cap names had disappointing results, like **JDE Peet's** or **TeamViewer**, which we sold out of. **ASML**, despite a very strong performance in 2021, is a top detractor because we did not own it during the first few months of the year and that cost us 50bps of performance, illustrating one of the challenges of last year.

ELEVA Euroland Selection Fund

In 2021, the ELEVA Euroland Selection Fund - Class I (EUR) acc. was up 26.03% against the EURO STOXX Index (Net Return), up 22.67%, an outperformance of 336 bps. Since inception, the strategy is up 57.23% vs. the index up 38.89%, an outperformance of 1,834 bps.

Similar drivers to that of the European Selection strategy were at play in 2020. Sector allocation was negative in 2021. The allocation was positive in real estate and consumer staples but was negative in technology and energy.

Most of the alpha was generated by favorable stock picking. It was positive in consumer discretionary, industrials and communication services but negative in technology, consumer staples and real estate.

Similar contributors and detractors to that of the European Selection Fund are found in Euroland Selection Fund. Furthermore, **D'Ieteren** (consumer discretionary), **Bawag** (financials) and **OMV** (energy) were among the best contributors.

The detractors include mid cap companies and some that have disappointed on results like **SoftwareOne**, **JDE Peet's** or **TeamViewer**.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Management Report (continued)

ELEVA Absolute Return Europe Fund

The ELEVA Absolute Return Europe Fund – Class R (EUR) acc. performed positively in 2021, returning +6.42% over the period. Since inception, the strategy is up 39.49%.

In 2021, the selection effect was positive in the long book, while it was negative for the short book. The main performance driver for the fund last year was alpha generation on the long leg. All sectors contributed positively to the fund performance in 2021, especially industrials, consumer discretionary, financials and health care. Top contributors were found in health care (**Novo Nordisk**), the consumer space (**D'Ieteren**, **Stellantis**, **Nestle**, **Pernod Ricard**), utilities (**Veolia Environnement**) and real estate (**Segro**). On the other hand, main detractors were among utilities (**Scatec**, **Solaria Energia**), consumer staples (**JDE Peet's**, **Delivery Hero**, **Ocado**) and health care (**Orpea**).

Given the almost indiscriminate rise in the market in the first part of the year it was difficult to generate alpha on the short leg because of very directional markets and high short covering. The index overlay is the biggest detractor (-788 bps in 2021) in the context of a rising market.

Net exposure was a slightly positive contributor. Net exposure remained in a rather narrow range for most of 2021 (between 20% and 30%).

ELEVA Leaders Small & Mid-Cap Europe Fund

In 2021, the ELEVA Leaders Small & Mid Cap Europe Fund - Class I (EUR) acc. was up 27.61% against the EURO STOXX Index (Net Return), up 22.85%, an outperformance of 476 bps. Since inception, the strategy is up 103.11% vs. the index up 65.74%, an outperformance of 3,737 bps.

Outperforming sectors include consumer discretionary, communication services and materials, whilst technology and utilities lagged.

The strongest contributors were among consumer discretionary (**D'Ieteren Group**, **Accell Group**), materials (**Croda International**), financials (**FlatexDegiro**, **BFF Bank**) and industrials (**Teleperformance**, **Aalberts**, **Fluidra**, **Arcadis**). On the other hand, detractors were found in industrials (**Interpump Group**), technology (**Avast**, **Edenred**) and also in defensive sectors such as telecom (**Cellnex**) or utilities (**Albioma**, **Scatec**).

ELEVA Global Bonds Opportunities

The ELEVA Global Bonds Opportunities Fund was launched in September 2020 and performed positively in its inaugural year and since inception.

In 2021, the fund posted a slightly positive performance whereas most of the fixed income benchmarks registered negative returns due to a rising yield environment on sovereign debt. The fund was primarily positioned to benefit from this context through short duration strategies, mainly positioned on US treasuries. At the end of the period, the short positioning was reduced to a more neutral stance.

Inflation strategies contributed negatively, including a short US real rate and a short UK breakeven, as inflation expectations surprised to the upside despite historically high valuations and central bankers' willingness to fight it.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Management Report (continued)

ELEVA Global Bonds Opportunities (continued)

In terms of asset allocation, the overweight exposure to credit was beneficial to the performance, especially with high beta corporate exposure and short maturity dated bonds. The fund benefited from the rally of high yield carry and the positioning on hybrid carry, especially in the oil and REITS sectors. New issuers (Fidelidad, CTP, Almirall, Sani/Ikos, People Cert ...) were contributors, so were some convertible bonds with low equity's sensitivity and appealing yield pick-up (MTU Aero, Maisons du Monde). While the exposure to credit was reduced in the summer, it was increased during Q4 via an exposure to reopening issuers (Lufthansa, Maxeda, eDreams, ...) and a reduction of the CDS protection at a time when the credit market was under stress.

The emerging exposure in EUR and USD contributed positively (Ivory Coast, Egypt, and Mexico) as spreads had been tightening until September, especially high yield spreads. The fund performed weaker in Q4 even though the fund's dynamic allocation between asset classes cushioned the underperformance.

The relative value strategies detracted, specifically the steepening positioning (5/30Y US and 10/30Y Germany). The FX strategies were neutral in terms of performance (positioning on EURCHF, USDBRL, EURUSD, EURNOK, USDJPY, and RUBZAR).

Since inception, ELEVA Global Bonds Opportunities – I EUR Acc. is up 1.19%. In 2021, ELEVA Global Bonds Opportunities – I EUR Acc. is up 0.14%.

ELEVA Euro Bonds Strategies

The ELEVA Euro Bonds Strategies Fund was launched in September 2020. The fund outperformed the benchmark (Bloomberg Euro Aggregate TR) in 2020 and 2021.

In 2021, the fund was underweight duration versus the benchmark (Euro denominated debt), which proved to be the correct call performance wise.

In terms of asset allocation, the overweight exposure to credit was beneficial to the performance, especially with high beta corporate exposure and short maturity dated bonds.

The fund benefited from the rally of high yield carry and the positioning on hybrid carry, especially in the oil and REITS sectors. New issuers (Fidelidad, CTP, Almirall, Sani/Ikos, People Cert...) were contributors, so were some convertible bonds with low equity's sensitivity and appealing yield pick-up (MTU Aero, Maisons du Monde). While the exposure to credit was reduced in the summer, it was increased during Q4 via an exposure to reopening issuers (Lufthansa, Maxeda, eDreams, ...) and a reduction of the CDS protection at a time when the credit market was under stress.

The fund's defensive stance on European peripheral spreads (Italy, Spain) was beneficial. The emerging exposure in EUR (Mexico, Ivory Coast and Egypt) contributed positively. The overweight exposure was reduced in September before the sell-off experienced by the emerging market.

In terms of relative value strategies, the portfolio curve positioning was negative due to the flattening 10/30Y Germany whereas the flattening 10/30Y Italy was positive.

Since inception, ELEVA Euro Bonds Strategies – I EUR Acc. is up 1.01%, outperforming the Bloomberg Euro Aggregate Index by 258 bps. In 2021, ELEVA Euro Bonds Strategies – I EUR Acc. is down 1.03%, outperforming the Bloomberg Euro Aggregate Index by 182 bps.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Management Report (continued)

ELEVA Sustainable Impact Europe

In 2021, the ELEVA Sustainable Impact Europe Fund - Class I (EUR) acc. was up 19.72% vs. the STOXX Europe 600 index (Net Return), up 24.91%, an underperformance of 519 bps. Since inception, the Fund is up 21.03% vs. the index up 25.47%, an underperformance of 444 bps.

In terms of sector allocation, health care and materials were the two main relative contributors. Financials and consumer discretionary were the main relative detractors.

At company level, the top performers over 2021 were **Capgemini** (+183bps / consulting firm), **Aalberts** +159bps / machinery and equipment industry) and **Croda International** (+141bps / specialty chemicals company). The main detractors were **Worldline** (-93bps / payment and transaction services), **Scatec** (-90bps / utility, renewables) and **Alstom** (-76bps / manufacturer of infrastructures for rail transport).

At the end of 2021, the fund was made of 43 positions and had a 68% exposure to UN SDG, meaning that if the fund was a company, it would have 68% of its revenue contributing to SDGs.

Outlook 2022

After a V-shaped economic recovery related to the Covid situation, macroeconomic indicators are weakening again. The Ukrainian war situation clouds the economic recovery, with weakness expected in consumer spending, adds to inflation concerns, and is only partially offset by the encouraging Covid data. Even though we do not think that the recession risk will materialize in Europe in 2022, we however expect defensives to outperform until there is more visibility.

April 2022

To the Shareholders of
Eleva UCITS FUND

REPORT OF THE *REVISEUR D'ENTREPRISES AGREE*

Opinion

We have audited the financial statements of Eleva UCITS Fund (the “Fund”) and of each of its sub-funds, which comprise the statement of net assets, the schedule of investments and the schedule of derivatives as at 31 December 2021 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Eleva UCITS Fund and of each of its sub-funds as at 31 December 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “*Commission de Surveillance du Secteur Financier*” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “*réviseur d’entreprises agréé*” for the Audit of the Financial Statements” section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

Société à responsabilité limitée au capital de 360.000 €
RCS Luxembourg B 67.895
Autorisation d'établissement 10022179

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the “*réviseur d’entreprises agréé*” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “*réviseur d’entreprises agréé*” for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “*réviseur d’entreprises agréé*” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "*réviseur d'entreprises agréé*" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "*réviseur d'entreprises agréé*". However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

For Deloitte Audit, *Cabinet de révision agréé*

Ladislav De Crouy-Chanel, *Réviseur d'entreprises agréé*
Partner

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Schedule of Derivatives 31 December 2021

Investments in Derivative Contracts

The Fund may use financial derivative instruments (“FDIs”) involving Transferable Securities and Money Market Instruments for the purpose of efficient portfolio management (“EPM”) of its assets and for hedging purposes. The Fund may also use FDIs for investment purposes in accordance with ESMA Guidelines 2014/937 to meet the Fund’s investment objectives only if provided for in the Prospectus within the limits set forth by law, regulation and administrative practice.

When entering into FDIs, securities lending transactions, repurchase agreements or other techniques or instruments, each of the Fund and its counterparties may require delivery of collateral as security against its exposure thereunder. The Sub-Fund’s exposure, and therefore the collateral required to be posted, will typically be calculated on a daily mark-to-market basis. The level of collateral required by the Sub-Fund will be such that the risk exposure of each Sub-Fund to a single counterparty will not, unless otherwise permitted under the Law of 2010, exceed 5% of the relevant Sub-Fund’s net assets. The Fund may only receive cash collateral, including when entering into OTC Derivatives. Such collateral is typically not subject to a haircut and will be valued at its face value.

Contracts for Differences

As at 31 December 2021, the Eleva Absolute Return Europe Fund had entered into the following contracts on international listed shares with Bank of America Merrill Lynch:

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021

1. General Information

Eleva UCITS Fund (the “Fund”) is an investment company organised as a Société Anonyme under the laws of the Grand Duchy of Luxembourg and qualifies as a Société d'Investissement à Capital Variable (SICAV). The Fund was incorporated in Luxembourg on 22 January 2015 for an unlimited period and is authorised under Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment, as amended (the “Law of 2010”). The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities under Article 1, Paragraph 2, (a) and (b) of the Directive 2009/65/EC.

The Fund has appointed Eleva Capital S.A.S. (the “Management Company”) to serve as its designated Management Company in accordance with the Law of 2010. Pursuant to the Investment Management Agreement, Eleva Capital S.A.S. was appointed investment manager to the Fund. The Management Company has appointed, with the consent of the Fund, Eleva Capital S.A.S. as distributor of the Fund.

As at 31 December 2021, the Fund consisted of the seven Sub-Funds: Eleva European Selection Fund, Eleva Absolute Return Europe Fund, Eleva Euroland Selection Fund, Eleva Leaders Small & Mid-Cap Europe Fund, Eleva Sustainable Impact Europe Fund, Eleva Euro Bonds Strategies Fund and Eleva Global Bonds Opportunities Fund.

The Sub-Funds offer a number of different Classes of Shares. Certain Classes are available to Retail Investors while other Classes may be available only to Institutional Investors. These Classes may be sub-divided into accumulation of income or distribution of income categories as further detailed in the Prospectus. Hedged Classes of a Sub-Fund will be hedged against the Reference Currency of that Sub-Fund, with the objective of minimizing currency risk exposure.

Share Classes launched in 2021

Fund Name	Share Class	Launch date
Eleva European Selection Fund	Class H1 (SEK) acc. (hedged)	12 July 2021
	Class H3 (EUR) acc.	01 September 2021
	Class H3 (SEK) acc.(hedged)	01 September 2021
Eleva Euroland Selection Fund	Class I2 (EUR) dis.	07 May 2021

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund.

a) Presentation of Financial Statements

The financial year of the Fund ends on 31 December in each year. The financial statements have been prepared in accordance with generally accepted accounting principles in Luxembourg, legal and regulatory requirements applicable in Luxembourg and are presented in Euro.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

2. Significant Accounting Policies (continued)

b) Main Investment Valuation Principles

- The value of securities and/or financial derivative instruments which are quoted or dealt in on any stock exchange shall be based in respect of each security on the latest available dealing prices on the stock exchange which is normally the principal market for such security or the latest available quoted bid prices obtained by an independent pricing service;
- Where investments of the Fund are both listed on a stock exchange and dealt in by market makers outside the stock exchange on which the investments are listed, then the Board of Directors will determine the principal market for the investments in question and they will be valued at the latest available price in that market;
- Securities dealt in on another regulated market are valued in a manner as near as possible to that described in the first paragraph above;
- In the event that any of the securities held in the Fund's portfolio are not quoted or dealt in on a stock exchange or another regulated market, or for any of such securities, no price quotation is available, or if the price determined is not in the opinion of the Board of Directors representative of the fair market value of the relevant securities, the value of such securities shall be determined prudently and in good faith, based on the reasonably foreseeable sales or any other appropriate valuation principles;
- The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in a reliable and verifiable manner on a daily basis and verified by the Central Administration Agent;
- Units or shares in underlying open-ended investment funds shall be valued at their last available net asset value reduced by any applicable charges;
- Liquid assets and Money Market Instruments are valued at their market price, at their nominal value plus accrued interest or on an amortised cost basis in accordance with the European Securities and Markets Authority's guidelines on a common definition of European money market funds. If the Fund considers that an amortisation method can be used to assess the value of a Money Market Instrument, it will ensure that this will not result in a material discrepancy between the value of the Money Market Instrument and the value calculated according to the amortisation method;
- In the event that the above mentioned calculation methods are inappropriate or misleading, the Board of Directors may adjust the value of any investment or permit some other method of valuation to be used for the assets of the Fund if it considers that the circumstances justify that such adjustment or other method of valuation should be adopted to reflect more fairly the value of such investments.

Realised gains/(losses) on investments sold are included in the Statement of Operations and Changes in Net Assets under "Net realised gain/(loss) on Investments".

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

2. Significant Accounting Policies (continued)

c) Forward Foreign Exchange Contracts

Forward foreign exchange contracts represent obligations to purchase or sell foreign currency on a specified future date at a price fixed at the time the contracts are entered into. The values of the forward foreign exchange contracts are adjusted daily based on the applicable exchange rate of the underlying currency. Changes in the value of these contracts are recorded as unrealised appreciation or depreciation until the contract settlement date. When the forward contract is closed, the Sub-Fund records a realised gain or loss equal to the difference between the value at the time the contract was opened and the value at the time it was closed.

The unrealised appreciation/(depreciation) on forward foreign exchange contracts is disclosed in the Statement of Net Assets under "unrealised appreciation/(depreciation) on forward foreign exchange contracts". Realised gain/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on Forward foreign exchange contracts" and "Net change in unrealised appreciation/(depreciation) on Forward foreign exchange contracts".

d) Contracts for Differences

Contracts for differences are valued based on the closing market price of the underlying security converted into the base currency of the contract for differences, less any financing charges attributable to each contract which are booked separately. On entering a contract for differences, the Fund may be required to pledge an amount of cash and/or other assets to the broker which is equal to a certain percentage of the contract amount ('initial margin'). Subsequently, payments known as 'variation margins' are made or received by the Fund periodically, depending on the fluctuations in the value of the underlying security. Realised gains or losses at the closure of the contract are equal to the difference between the value of the contract for differences at the time it was opened (including any financial changes) and the value at the time it was closed. Dividends (net of withholding taxes) attributable to open contracts for differences are deemed to be dividends receivable or payable, depending on whether the Fund held short or long position in shares with contracts for differences, at the end of the period. The result of these revaluations on 31 December 2021 is shown in the Statement of Net Assets under 'Unrealised (depreciation) on contracts for differences'. The reset day is as of the 15 calendar day of each month, or in the event that is not a business day, the next applicable business day.

The unrealised appreciation/(depreciation) on contracts for differences is disclosed in the Statement of Net Assets under "Unrealised appreciation/(depreciation) on Contracts for differences". Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on Contracts for differences" and "Net change in unrealised appreciation/(depreciation) on Contracts for differences".

The dividend income/expenses resulting from contracts for differences are disclosed in the Statement of Operations and Changes in Net Assets under "Dividend expenses on contracts for differences".

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

2. Significant Accounting Policies (continued)

e) Foreign Currency

The books and records of the Sub-Funds are denominated in EUR. Although Shares of the different Classes within Sub-Funds may be denominated in different currencies, the Sub-Funds may invest the assets related to a Class in securities denominated in a wide range of other currencies. The Net Asset Value of the relevant Class of the relevant Sub-Funds as expressed in its Reference Currency will be impacted by the variations between the rate of the Reference Currency and the rate of the currencies in which the Sub-Funds' investments are denominated.

The following EUR exchange rates were used to translate the assets and liabilities at the year-end:

Currency	Rate
Australian Dollar (AUD)	1.5641
British Pound (GBP)	0.8396
Canadian Dollar (CAD)	1.4364
Chilean Peso (CLP)	968.8944
Danish Krone (DKK)	7.4375
Hungarian Forint (HUF)	368.5650
Japanese Yen (JPY)	130.9542
Mexican Peso (MXN)	23.2727
New Zealand Dollar (NZD)	1.6609
Norwegian Krone (NOK)	10.0282
Polish Zloty (PLN)	4.5833
Russian Roubles (RUB)	85.2971
South African Rand (ZAR)	18.1497
Swedish Krona (SEK)	10.2960
Swiss Franc (CHF)	1.0361
U.S. Dollar (USD)	1.1372

f) Securities Lending

The Fund may enter into securities lending transactions in accordance with the provisions of Circular 08/356, Circular 14/592 and ESMA Guidelines 2014/937.

The Fund will ensure that it is able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.

All revenues (less transaction costs) from securities lending transactions are accrued to the relevant Sub-Fund. All counterparties to securities lending transactions will meet the requirements of the Law of 2010 as to legal status, origin and minimum credit rating.

As at 31 December 2021, the Sub-Funds of the SICAV which are mentioned below were engaged in securities lending transactions. The value of the securities lent and the market value of the collateral received for each Sub-Fund is detailed in the following table:

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

2. Significant Accounting Policies (continued)

f) Securities Lending (continued)

Sub-Funds	Currency	Market value of securities lent	Market value of collateral received*	Securities lending income
Eleva European Selection Fund	EUR	103,276,178	109,560,036	597,270
Eleva Absolute Return Europe Fund	EUR	172,362,867	209,514,258	447,655
Eleva Euroland Selection Fund	EUR	54,470,097	57,842,261	136,763

* High quality government bonds of any maturity are used as collateral.

The ratings of the collateral are presented in the Appendix.

Securities collateral received is typically valued on a daily mark-to-market basis in accordance with the Fund's valuation policy, subject to the application of a haircut in normal market conditions of approximately 5%.

Revenues from securities lending transactions are included in the caption "Interest income on securities lending" in the Statement of Operations and Changes in Net Assets.

g) Dividend Income and Expense

Dividend income on long positions and dividend expense on short positions are recognised in the Statement of Operations and Changes in Net Assets on the "ex-dividend" date.

h) Interest Income

Bank interest and interest income on bonds are accrued on a daily basis and includes the amortization of premiums and accretion of discounts.

i) Formation Expenses

The costs and expenses of the formation of the Fund were borne by the Eleva European Selection Fund and amortized over a period not exceeding five (5) years. The formation costs of any new Sub-Fund shall be borne by the relevant Sub-Fund and amortized over a period not exceeding five (5) years.

j) Cross Sub-Fund Investments

As at 31 December 2021, below Sub-Funds invested in cross Sub-Funds as per below. The total combined net assets of Eleva UCITS Fund at year-end, excluding the cross investment amounts to EUR 10,615,287,331.

Sub-fund	Investment	Investment value EUR
Eleva Absolute Return Europe Fund	Eleva Euro Bonds Strategies Fund	50,797,771
Eleva Absolute Return Europe Fund	Eleva Global Bonds Opportunities Fund	81,961,566
Eleva European Selection Fund	Eleva Leaders Small & Mid-Cap Europe Fund	33,093,265
Eleva European Selection Fund	Eleva Sustainable Impact Europe Fund	52,623,008

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

2. Significant Accounting Policies (continued)

k) Cash and Cash Equivalents

Cash and other liquid assets are valued at their face value with interest accrued, where applicable.

l) Transaction Costs

Transaction costs are the costs incurred in the acquisition, issue, disposal or transfer of financial assets and liabilities. Transaction costs include fees and commissions paid to brokers and dealers, levies by regulatory agencies and securities exchanges, depositary transaction costs and transfer taxes and duties.

Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs.

These costs are included with the cost of investments purchased and deducted from the proceeds received on sales of investments

The total transaction costs paid by the Sub-funds during the year are as follows:

Sub-Funds	Currency	Broker costs	Transaction related costs (Bank commission)	Total
Eleva European Selection Fund	EUR	14,743,122	-	14,743,122
Eleva Absolute Return Europe Fund	EUR	6,327,552	26,825	6,354,377
Eleva Euroland Selection Fund	EUR	3,247,044	-	3,247,044
Eleva Leaders Small & Mid-Cap Europe Fund	EUR	1,253,832	-	1,253,832
Eleva Sustainable Impact Europe Fund	EUR	137,742	-	137,742
Eleva Euro Bonds Strategies Fund	EUR	6,591	-	6,591
Eleva Global Bonds Opportunities Fund	EUR	36,523	82	36,605

m) Options

Outstanding options traded on a regulated market are valued based on the intraday price or the last available market price of the instruments.

OTC options are marked to market based upon daily prices obtained from third party pricing agents and verified against the value from the counterparty.

The market value of options is included in the statement of net assets under the headings "Unrealised appreciation on Options".

The realised gains/(losses) and change in unrealised appreciation/(depreciation) on options are disclosed in the statement of operations and changes in net assets respectively under the headings "Net realised (loss) on Options" and "Net change in on Options".

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

2. Significant Accounting Policies (continued)

n) Futures Contracts

Upon entering into a futures contract, the Fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by each sub-fund periodically and are based on changes in the market value of open futures contracts.

The unrealised appreciation/(depreciation) on futures contracts is disclosed in the statement of net assets under "Unrealised appreciation/(depreciation) on Futures contracts". Changes in the market value of open futures contracts are recorded as unrealised appreciation/(depreciation) in the statement of operations and changes in net assets under "Change in unrealised appreciation/(depreciation) on Futures". Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations and changes in net assets under "Net realised gain/(loss) on Futures contracts". Securities deposited as initial margin account are designated in the Portfolio of investments and other Net Assets and cash deposited is recorded in the statement of net assets in "Cash and cash equivalents". A receivable and/or a payable to brokers for the daily variation margin is also recorded in the statement of net assets under caption Cash and cash equivalents.

o) Credit Default Swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party (the protection buyer) pays the other (the protection seller) a fixed periodic coupon for the specified life of the agreement in return for a payment contingent on a credit event related to the underlying reference obligation.

If a credit event occurs, the protection seller would be obliged to make a payment, which may be either: (i) a net cash settlement equal to the notional amount of the swap less the auction value of the reference obligation or (ii) the notional amount of the swap in exchange for the delivery of the reference obligation. Selling protection effectively adds leverage to a Fund's portfolio up to the notional amount of swap agreements.

Credit default swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation/(depreciation) is disclosed in the statement of net assets under "Unrealised (depreciation) on Swaps". Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under the heading "Net realised gain/(loss) on Swaps" and "Net change in unrealised appreciation/(depreciation) on Swaps".

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

3. Tax Status

Under current law and practice, the Fund is not liable for any Luxembourg tax on profits or income. The Fund is liable in Luxembourg for an annual subscription tax (“taxe d’abonnement”) which is payable quarterly on the basis of the value of the net assets of the Fund at the end of the relevant calendar quarter. The rates of the subscription tax are 0.05% per annum of the Net Asset Value of each Class which is available to Retail Investors and 0.01% per annum of the Net Asset Value of each Class which is available to Institutional Investors.

Pursuant to article 175(a) of the Law of 17 December 2010, the net assets invested in UCI already subject to the “taxe d’adonnement” are exempt from this tax.

No corporate tax is payable in Luxembourg on realised or unrealised capital appreciation of the assets of the Fund.

The Fund was liable for an initial fixed charge of EUR 75 which was paid upon its incorporation.

Dividends and interest received by the Fund on its investments are in many cases subject to irrecoverable withholding taxes at source.

4. Dividends

In respect of the Accumulation Classes, under normal circumstances, the Sub-Funds do not intend to declare and make distributions with respect to the net investment income and realised capital gains of each Accumulation Class. Accordingly, the Net Asset Value per Share of these Accumulation Classes will reflect any net investment income or capital gains.

It is intended that the Board of Directors will make distributions to the holders of Class A1 (EUR) dis., Class A1 (GBP) dis. (unhedged), Class A1 (USD) dis. (hedged), Class I (EUR) dis., Class I2 (EUR) dis., Class R (EUR) dis., Class H1 (EUR) dis., Class J1 (GBP) dis. and Class J2 (GBP) dis. It is expected that net income (net of expenses and reserves) actually received by the Sub-Fund attributable to the relevant Class that is deemed by the Investment Manager in its sole discretion, to be distributable income, will be distributed to the relevant Class’ Shareholders. No distribution may be made which would result in the net assets of the Sub-Fund falling below the minimum provided for by Luxembourg law.

Shareholders in Distribution Classes shall have the discretion to elect that any distribution payable or declared shall be reinvested in the appropriate Sub-Fund instead of being paid in cash. Distributions re-invested shall be treated in the same way as a subscription for Shares in the appropriate Sub-Fund.

Any distributions unclaimed after five years from the end of the relevant Financial Year will lapse and revert to the relevant Sub-Fund as a whole. No interest will be payable by the relevant Sub-Fund on distributions declared and held for the benefit of the relevant Shareholder until the date of payment or the date upon which such distributions are forfeited.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

4. Dividends (continued)

During the year ended 31 December 2021, Eleva European Selection Fund distributed the following dividends per share (ex-date and in EUR):

Share class	Ex date	Pay date	Rate per share	Number of shares	Total amount paid EUR
Eleva Euroland Selection Fund					
Class I (EUR) dis.	4 January 2021	11 January 2021	6.5448	1,394.21	9,125
					<u>9,125</u>
Eleva European Selection Fund					
Class A1 (EUR) dis.	4 January 2021	11 January 2021	0.1406	17,416.34	2,449
Class H1 (EUR) dis.	4 January 2021	11 January 2021	7.6206	141,167.80	1,075,787
Class I (EUR) dis.	4 January 2021	11 January 2021	8.1610	43,095.43	351,703
Class I2 (EUR) dis.	4 January 2021	11 January 2021	8.8251	18,152.03	160,193
Class R (EUR) dis.	4 January 2021	11 January 2021	0.7459	25,600.46	19,094
					<u>1,609,226.00</u>
					<u>1,618,351</u>

* Minor differences in calculation may occur due to rounding

5. Investment Management Fees

The Sub-Funds pay out of the assets of the Sub-Funds to the Investment Manager an investment management fee monthly in arrears at the rate per annum, as set out below, of the Net Asset Value of the relevant Class of the Sub-Funds. The investment management fees are calculated and paid in the base currency of the Sub-Funds.

The following table lists the Investment Management Fees paid by the Sub-Funds during the year ended 31 December 2021:

Eleva European Selection Fund	
Class and Currency Denomination	Investment Management Fees
Class A1 (CHF) acc. (hedged)	1.5%
Class A1 (EUR) acc.	1.5%
Class A1 (EUR) dis.	1.5%
Class A1 (USD) acc. (hedged)	1.5%

6. Performance Fees

The Investment Manager of Eleva European Selection Fund is entitled in respect of each Class to receive a performance fee calculated in relation to each Performance Period. A performance fee may only be levied if the percentage evolution of the Net Asset Value per Share is superior to the percentage evolution of the STOXX Europe 600 (Net Return) Index during the Performance Period. The performance fee for each Class is set out in the table below and shall be payable in respect of the amount by which the percentage increase or decrease in the Net Asset Value per Share is, respectively, more than or less than the percentage increase or decrease in value of the STOXX Europe 600 (Net Return) Index (Referred to as the SXXR Index on Bloomberg) during the Performance Period.

³ The Share class was launched on 01 September 2021.

The Investment Manager of Eleva Absolute Return Europe Fund is entitled in respect of each Class to receive a performance fee calculated in relation to each Performance Period. For each Performance Period, the performance fee payable will be equal to a specified percentage of any “New Net Appreciation” of the relevant Class.

The New Net Appreciation shall equal the amount, if any, by which the Net Asset Value per Share of the relevant Class as of the end of the relevant Performance Period exceeds the “High Water Mark” multiplied by the average number of Shares of the relevant Class in issue during the Performance Period.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

6. Performance Fees (continued)

The High Water Mark is the greater of:

- the Net Asset Value per Share of the relevant Class as of the end of the most recent Performance Period at which a performance fee was paid by such Class (after reduction for the performance fee then paid); and
- if no performance fee has ever been paid, then the Net Asset Value per Share of the relevant Class upon first issue.

For the avoidance of doubt, a performance fee is only payable where the Net Asset Value per Share of the relevant Class exceeds its High Water Mark.

Specific Performance Fee for Class H Shares:

For Eleva European Selection Fund, Eleva Euroland Selection Fund, Eleva Leaders Small & Mid-Cap Europe Fund, Eleva Sustainable Impact Europe Fund and Eleva Euro Bonds Strategies Fund the Investment Manager is entitled in respect of each Class H Shares to receive a performance fee calculated in relation to each Performance Period.

A performance fee may only be levied if the percentage evolution of the Net Asset Value per Share of the relevant Class is superior to the percentage evolution of the Relevant Benchmark for that Class during the period since the last performance fees were paid until the end of the Financial Year (the "Performance Period").

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

6. Performance Fees (continued)

Specific Performance Fee for Class H Shares (continued):

For the avoidance of doubt, the Performance Period will either be:

- a) the Financial Year if performance fees have been paid in the last Financial Year; or
- b) the period from the last performance fees payment (Net Asset Value per Share on the last Valuation Day of the preceding Performance Period at the end of which a performance fee was paid after deduction of accrued performance fees and distributions in respect of such period) until the end of the Financial Year.

For all Sub-Funds the performance fee is payable in arrears within 10 calendar days at the end of each Performance Period. The Net Asset Value per Share utilised in calculating the performance of a Class over a Performance Period will include accruals for investment management fees but not performance fees payable in respect of each Performance Period. In addition, appropriate adjustments will be made to take account of distributions made in respect of a Class for prior Performance Periods and the actual performance of the Net Asset Value per Share in a Performance Period will be adjusted to include any distributions made in respect of the Class for the Performance Period.

Shareholders should note that, as the performance fee is calculated at a Class level and not at an individual Shareholder level, Shareholders may be charged a performance fee even where the Net Asset Value of their Shares have remained the same or dropped in value.

In the event Shares of a Class are redeemed during a Performance Period, a performance fee will be payable equivalent to the performance fee accrued in calculating the Net Asset Value per Share at the time of redemption.

For Eleva European Selection Fund, Eleva Euroland Selection Fund, Eleva Leaders Small & Mid-Cap Europe Fund, Eleva Sustainable Impact Europe Fund, Eleva Global Bonds Opportunities Fund, Eleva Absolute Return Europe Fund (since November 2020) and Eleva Euro Bonds Strategies Fund the Performance Periods in respect of each Class comprise successive 12 monthly periods ending on 31 December in each calendar year. The first Performance Period in respect of a Class will commence on the first Dealing Day for Shares of a Class and will end on the date of termination of the Class.

The last Performance Period in respect of a Class will end on the date of termination of the Class. If the Investment Management Agreement is terminated before the end of a Performance Period, the performance fee in respect of the then current Performance Period will be calculated and paid to the Investment Manager as though the date of termination were the end of the relevant Performance Period.

7. Management Company Fees

The Fund will pay the Management Company a management company fee of 0.005% per Sub-Fund per year.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

8. Depositary, Administration and Transfer Agent Fees

The Depositary receives annual safekeeping and servicing fees, according to an agreed schedule with the Fund in respect of each Sub-Fund, the rates for which vary according to the country of investment and, in some cases, according to the Class.

The depositary fee is payable at the end of each month by the Fund in respect of each Sub-Fund and is accrued on each Valuation Day based on the previous Valuation Day's Net Asset Value and the number of transactions processed. The depositary fees paid by the Fund will not exceed 0.009% per annum of the Net Asset Value of each Sub-Fund with a minimum of EUR 160,000 per year for the Fund (excluding charges for cash flow monitoring, charges for investment restriction duties, safekeeping fees, transaction charges and any other out-of-pocket expenses).

The Central Administration Agent receives annual administrative fees according to an agreed schedule with the Fund in respect of each Sub-Fund.

The administrative fee is payable by the Fund in respect of each Sub-Fund and is accrued on each Valuation Day based on the previous Valuation Day's Net Asset Value and the number of transactions processed during that month. The administrative fee is calculated by the agreed schedule and shall, in principle, not exceed 0.025% per annum of the Net Asset Value of each Sub-Fund and remain subject to a minimum of EUR 192,000 per year for the Fund.

The transfer agent fee is payable by the Fund in respect of each Sub-fund and is accrued on each Valuation Day based on the previous Valuation Day's net Asset Value. The transfer agent fee includes Fund maintenance, Share class maintenance, Shareholder service fees, transaction fees and out-of-pocket fees.

9. Statement of Changes in Portfolio Composition

The statement of the changes in the Schedule of Investments for the year ended 31 December 2021, can be obtained free of charge from the registered office of the Fund as disclosed on page 3.

10. Collateral related to over-the-counter ("OTC") Financial Derivative Instruments

As at 31 December 2021, the Fund has delivered collateral to Counterparties related to OTC financial derivative instruments.

11. Swing pricing and dilution levy

In certain circumstances, subscriptions, redemptions, and conversions in a Sub-Fund may have a negative impact on the net asset value per Share. Where subscriptions, redemptions, and conversions in the Sub-Fund cause the Sub-Fund to buy and/or sell underlying investments, the value of these investments may be affected by bid/offer spreads, trading costs and related expenses. This investment activity may have a negative impact on the net asset value per Share called dilution. In order to protect existing or remaining investors from the potential effect of dilution, the Fund may apply an anti-dilution levy or a "swing pricing" methodology as part of its daily valuation policy for the following sub-funds: Eleva Euro Bonds Strategies Fund and Eleva Global Bonds Opportunities Fund.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Notes to the Financial Statements as at 31 December 2021 (continued)

11. Swing pricing and dilution levy (continued)

The Board of Directors has chosen the partial swing approach. The Fund may apply a “swing pricing” methodology which adjusts the net asset value per Share to account for the aggregate costs of buying and/or selling underlying investments. The net asset value per Share will be adjusted by a certain percentage set by the Board of Directors from time to time for each Sub-Fund called the “swing factor” which represents the estimated bid-offer spread of the assets in which the Sub-Fund invests and estimated tax, trading costs, and related expenses that may be incurred by the Sub-Fund as a result of buying and/or selling underlying investments (called the Swing Factor). Generally, the Swing Factor will not exceed two percent (2%) of the net asset value per Share.

During the year the swing pricing mechanism has not been applied by the Fund. As at 31 December 2021, none of the sub-funds have applied swing price adjustments.

12. Significant Events during the Year

On 1 July 2021, Mme Aglaé Touchard Le Drian was approved by Commission de Surveillance du Secteur Financier as the Member of the Board of Directors.

The Board of Directors has duly adopted the principles of the ALFI (Association of the Luxembourg Fund Industry) Code of Conduct for Luxembourg Investment Funds.

Impact of the Coronavirus (COVID-19)

In 2021, markets have suffered from fears about the outbreak of more serious variants. Although the delta and omicron variants affected the optimism of market participants throughout the year, the progress of vaccination campaigns helped to offset these fears. The global economy suffered more from the consequences of local lockdowns than from the virus itself. The Board and the Manager continue to monitor the virus even though the normalization seems to be in effect.

13. Subsequent Events

On 24 February 2022, Russian troops started invading Ukraine. In response, multiple jurisdictions, including the EU, Switzerland, the UK, the US, Canada, Japan and Australia have imposed initial tranches of economic sanctions on Russia and sometimes on Byelorussia. Also a number of publicly listed Russian, Byelorussian or Ukrainian entities have had their listing suspended on certain stock exchanges and/or been excluded from market indices.

Financial markets have inevitably been impacted, in particular with an increase of the volatility and a decrease in liquidity.

None of the sub-funds of Eleva UCITS Fund were invested into Russian, Byelorussian or Ukrainian securities as at 31 December 2021 or during the year 2022 until the date of this report.

As at 31 December 2021, Eleva Global Bonds Opportunities Fund was exposed to USD/RUB and RUB/USD Forward Foreign Exchange Contracts as stated in the related Schedule of Investments of this sub-fund. The net exposure was -0.75% of the total Net Asset (ie. short RUB vs. USD). In 2022, the exposure to USD/RUB and RUB/USD Forward Foreign Exchange Contracts was netted to zero on 10 February 2022 until 23 March 2022, the maturity date of the related Forward Foreign Exchange Contracts. There was no other exposure after this date until the date of this report. The contracts were settled in USD.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Appendix 1 – Securities Financing Transactions Regulation (unaudited)

Securities Financing Transaction Regulation (“SFTR”) introduces reporting requirements for securities lending transactions (“SFTs”) and total return swaps.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement
- securities or commodities lending and securities or commodities borrowing
- a buy-sell back transaction or sell-buy back transaction, or
- a margin lending transaction

As at 31 December 2021, three Sub-Funds held Securities Lending as types of instruments under the scope of the SFTs.

Global Data

The amount of assets across all SFTs as at 31 December 2021 is as follows:

Eleva European Selection Fund

Type of Asset	Amount*	% of NAV	% of lendable assets
Securities lending	103,276,178	2.14%	2.16%

Eleva Absolute Return Europe Fund

Type of Asset	Amount*	% of NAV	% of lendable assets
Securities lending	172,362,867	5.39%	6.67%

Eleva Euroland Selection Fund

Type of Asset	Amount*	% of NAV	% of lendable assets
Securities lending	54,470,097	5.04%	5.17%

* Market Value of securities on loan

Data on reuse of collateral

There was no collateral reuse during the year ended 31 December 2021.

Société d'Investissement à Capital Variable

Appendix 2 – Report on Remuneration (unaudited)

Remuneration policies and practices – Management Company

The Management Company has established and applies a remuneration policy and practices that are consistent with, and promote, sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profile of the Fund, this Prospectus or the Articles of Incorporation nor impair compliance with the Management Company's obligation to act in the best interests of the Fund (the "Remuneration Policy").

The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the Fund and the Shareholders and includes measures to avoid conflicts of interest.

The Remuneration Policy includes fixed and variable components of salaries and applies to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Management Company, the Fund or the Sub-Funds. Within the Management Company, these categories of staff represent 18 persons.

The fixed component of the remuneration represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component.

The variable component of the remuneration is based on qualitative and quantitative criteria which include but are not limited to the following ones:

- The individual and collective financial performance;
- Customer service;
- Risk management;
- Quality of the performed tasks;
- Compliance with the internal rules of ethics and regulations;
- Management of the workload and teamwork.

The variable remuneration component of the employee's compensation is not a guaranteed payment, neither in principle nor in amount, and cannot be considered as fixed or quasi-fixed remuneration, even if an employee receives the same amount for several years.

In order to determine the overall budget of the variable component for the salaries, account shall be taken of:

- The overall result of the Management Company;
- The need of the Management Company to meet its capital requirements to face regulatory obligations on the one hand, and to finance its projects on the other;
- Shareholders' expectations regarding the remuneration of their investment.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Appendix 2 – Report on Remuneration (unaudited) (continued)

Remuneration policies and practices – Management Company (continued)

In particular, the Remuneration Policy seeks to ensure that:

- a) staff engaged in control functions are compensated in accordance with the achievement of the objectives linked to their functions, independently of the performance of the business areas that they control;
- b) the measurement of performance used to calculate variable remuneration components or pools of variable remuneration components includes a comprehensive adjustment mechanism to integrate all relevant types of current and future risks.

In the context of delegation, the Remuneration Policy seeks to ensure, as required by regulatory requirements that any delegate of the Management Company complies with the following criteria:

- a) the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the Shareholders in order to ensure that the assessment process is based on the longer-term performance of the Fund and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
- b) if at any point of time, the management of the Fund were to account for 50% or more of the total portfolio managed by the delegate, at least 50% of any variable remuneration component will have to consist of Shares, equivalent ownership interests, or share-linked instruments or equivalent non-cash instruments with equally effective incentives as any of the instruments referred to in this item b); and
- c) a substantial portion, and in any event at least 40% of the variable remuneration component, is deferred over a period which is appropriate in view of the holding period recommended to the Shareholders and is correctly aligned with the nature of the risks of the Fund.

The variable and fixed remuneration component of the salary will be determined by the partners of the Eleva group once a year in consideration of the overall result of the Management Company.

Also a remuneration committee has been created, which will perform its duties in line with the directive 2014/91/EU (UCITS V) in order to evaluate the applicability of the Remuneration Policy and to formulate recommendations in case necessary.

The following table shows the fixed and variable remuneration in 2021 for the Identified Staff (15 persons), who are fully or partly involved in the activities of all the Sub-Funds managed by the Management Company. For the purposes of the disclosures below, where investment management activities have been formally delegated to another entity, the remuneration of the relevant identified staff of the delegate has been excluded, as it is not paid out by the Management Company or the Fund or the Sub-Funds.

S = Senior Management.

R = Risk takers, which includes staff members whose professional activities can exert material influence the Funds or Sub-Funds.

C = Staff engaged in control functions (other than senior management) responsible for risk management, compliance, internal audit and similar functions.

O = Any other staff member receiving total remuneration that takes them into the same remuneration bracket as senior management and risk-takers, whose professional activities have a material impact on Eleva Capital S.A.S's risk profile.

A paper copy of the Remuneration Policy is available free of charge to the Shareholders upon request to the Management Company.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Appendix 3 – Sustainable Finance Disclosure Regulation (“SFDR”) (unaudited)

Eleva European Selection Fund

The Sub-Fund promotes a combination of environmental, social and governance characteristics and is a product falling under Article 8 of SFDR.

The Management Company uses a proprietary tool to internally analyse and score the companies on ESG criteria from 0 (worst score) to 100 (best score).

The analysed ESG criteria include, among others:

- Shareholders (i.e. Governance criteria): quality of management team, quality of the board of directors, quality of the relationship with shareholders;
- Employees (i.e. Social criteria): quality of human resources (“HR”) management, employer brand equity, employees retention, safety & security;
- Suppliers (i.e. a combination of Environmental, Social and Governance criteria): level of risk in the supply chain, supply chain risk management and control;
- Civil Society (i.e. a combination of Social and Governance criteria): customers, state, local communities;
- Planet (i.e. Environmental criteria): climate change, energy management, water, biodiversity, environmental impact of products.

The weighted average ESG score of the Eleva European Selection Sub-Fund has to be significantly higher (i.e. better) than the average ESG score of its initial investment universe. This implies that the weighted average ESG score of the Sub-Fund may in no case be lower than the average ESG score of the initial investment universe after elimination of the 20% worst companies.

A minimum ESG score of 40/100 is required for each company to enter the portfolio.

The weight of issuers analysed and scored on ESG criteria with the Eleva methodology prior to the investment must be higher than 90% of the invested pocket (i.e. excluding cash).

The Sub-Fund must show, as binding ESG criteria, a better performance than its initial investment universe on the following two ESG key performance indicators: carbon footprint (in tons of CO₂ equivalent/million euros invested) and exposure to the UN Global Compact signatories (sum of the weights of the UN Global Compact signatories).

As of 31 December 2021, the Sub-Fund:

- Showed a better overall ESG score than its initial investment universe: 65/100 against 59/100;
- Presented a better performance than its initial investment universe on its carbon footprint (in tons of CO₂ equivalent/million euros invested): 93 against 163;
- Was better exposed than its initial investment universe to the UN Global Compact signatories (sum of the weights of the UN Global Compact signatories): 81% against 64%.

The Sub-Fund has set several exclusions:

- Norm based exclusions: companies having violated one or more UN Global Compact principles.
- Sector based exclusions: companies involved in the sector (including production or distribution) of controversial weapons (0% of sales threshold), of tobacco (5% of sales threshold) and of nuclear weapons (5% of sales threshold).

The Management Company has also a coal policy in place limiting investments in companies involved in coal production or electricity produced from coal.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Appendix 3 – Sustainable Finance Disclosure Regulation (“SFDR”) (unaudited) (continued)

Eleva European Selection Fund (continued)

As of 31 December 2021, the fund did not maintain any position not in line with the above-mentioned exclusions.

Engagement is conducted with 100% of the companies in the fund and will be followed up and tracked over the coming years to accompany companies in their improvement of ESG practices. The Eleva European Selection Sub-Fund obtained the French SRI label in October 2021.

Eleva Absolute Return Europe Fund

The Sub-Fund promotes a combination of environmental, social and governance characteristics and is a product falling under Article 8 of SFDR.

The Management Company uses a proprietary tool to internally analyse and score the companies on ESG criteria from 0 (worst score) to 100 (best score).

The analysed ESG criteria include, among others:

- Shareholders (i.e. Governance criteria): quality of management team, quality of the board of directors, quality of the relationship with shareholders;
- Employees (i.e. Social criteria): quality of human resources (“HR”) management, employer brand equity, employees retention, safety & security;
- Suppliers (i.e. a combination of Environmental, Social and Governance criteria): level of risk in the supply chain, supply chain risk management and control;
- Civil Society (i.e. a combination of Social and Governance criteria): customers, state, local communities;
- Planet (i.e. Environmental criteria): climate change, energy management, water, biodiversity, environmental impact of products.

A minimum ESG score of 40/100 is required for each company to enter the long book of the portfolio.

The weight of issuers analysed and scored on ESG criteria with the Eleva methodology prior to the investment must be higher than 90% of the invested pocket for the long book (i.e. excluding cash).

As of 31 December 2021, the long book of the Sub-Fund:

- Showed a better overall ESG score than its initial investment universe: 65/100 against 59/100;
- Presented a better performance than its initial investment universe on its carbon footprint (in tons of CO2 equivalent/million euros invested): 88 against 163;
- Was better exposed than its initial investment universe to the UN Global Compact signatories (sum of the weights of the UN Global Compact signatories): 75% against 64%.

These are non-binding ESG criteria for the Sub-Fund.

Engagement is conducted with 100% of the companies in the long book of the fund and will be followed up and tracked over the coming years to accompany companies in their improvement of ESG practices.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Appendix 3 – Sustainable Finance Disclosure Regulation (“SFDR”) (unaudited) (continued)

Eleva Euroland Selection Fund

The Sub-Fund promotes a combination of environmental, social and governance characteristics and is a product falling under Article 8 of SFDR.

The Management Company uses a proprietary tool to internally analyse and score the companies on ESG criteria from 0 (worst score) to 100 (best score).

The analysed ESG criteria include, among others:

- Shareholders (i.e. Governance criteria): quality of management team, quality of the board of directors, quality of the relationship with shareholders;
- Employees (i.e. Social criteria): quality of human resources (“HR”) management, employer brand equity, employees retention, safety & security;
- Suppliers (i.e. a combination of Environmental, Social and Governance criteria): level of risk in the supply chain, supply chain risk management and control;
- Civil Society (i.e. a combination of Social and Governance criteria): customers, state, local communities;
- Planet (i.e. Environmental criteria): climate change, energy management, water, biodiversity, environmental impact of products.

The weighted average ESG score of the Eleva Euroland Selection Sub-Fund has to be significantly higher (i.e. better) than the average ESG score of its initial investment universe. This implies that the weighted average ESG score of the Sub-Fund may in no case be lower than the average ESG score of the initial investment universe after elimination of the 20% worst companies.

A minimum ESG score of 40/100 is required for each company to enter the portfolio.

The weight of issuers analysed and scored on ESG criteria with the Eleva methodology prior to the investment must be higher than 90% of the invested pocket (i.e. excluding cash).

The Sub-Fund must show, as binding ESG criteria, a better performance than its initial investment universe on the following two ESG key performance indicators: carbon footprint (in tons of CO₂ equivalent/million euros invested) and exposure to the UN Global Compact signatories (sum of the weights of the UN Global Compact signatories).

As of 31 December 2021, the Sub-Fund:

- Showed a better overall ESG score than its initial investment universe: 65/100 against 58/100;
- Presented a better performance than its initial investment universe on its carbon footprint (in tons of CO₂ equivalent/million euros invested): 120 against 222;
- Was better exposed than its initial investment universe to the UN Global Compact signatories (sum of the weights of the UN Global Compact signatories): 80% against 70%.

The Sub-Fund has set several exclusions:

- Norm based exclusions: companies having violated one or more UN Global Compact principles.
- Sector based exclusions: companies involved in the sector (including production or distribution) of controversial weapons (0% of sales threshold), of tobacco (5% of sales threshold) and of nuclear weapons (5% of sales threshold).

The Management Company has also a coal policy in place limiting investments in companies involved in coal production or electricity produced from coal.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Appendix 3 – Sustainable Finance Disclosure Regulation (“SFDR”) (unaudited) (continued)

Eleva Euroland Selection Fund (continued)

As of 31 December 2021, the fund did not maintain any position not in line with the above-mentioned exclusions.

Engagement is conducted with 100% of the companies in the fund and will be followed up and tracked over the coming years to accompany companies in their improvement of ESG practices. The Eleva Euroland Selection Sub-Fund obtained the French SRI label in October 2021.

Eleva Leaders Small & Mid-Cap Europe Fund

The Sub-Fund promotes a combination of environmental, social and governance characteristics and is a product falling under Article 8 of SFDR.

The Management Company uses a proprietary tool to internally analyse and score the companies on ESG criteria from 0 (worst score) to 100 (best score).

The analysed ESG criteria include, among others:

- Shareholders (i.e. Governance criteria): quality of management team, quality of the board of directors, quality of the relationship with shareholders;
- Employees (i.e. Social criteria): quality of human resources (“HR”) management, employer brand equity, employees retention, safety & security;
- Suppliers (i.e. a combination of Environmental, Social and Governance criteria): level of risk in the supply chain, supply chain risk management and control;
- Civil Society (i.e. a combination of Social and Governance criteria): customers, state, local communities;
- Planet (i.e. Environmental criteria): climate change, energy management, water, biodiversity, environmental impact of products.

The weighted average ESG score of the Eleva Leaders Small & Mid-Cap Europe Fund has to be significantly higher (i.e. better) than the average ESG score of its initial investment universe. This implies that the weighted average ESG score of the Sub-Fund may in no case be lower than the average ESG score of the initial investment universe after elimination of the 20% worst companies.

A minimum ESG score of 40/100 is required for each company to enter the portfolio.

The weight of issuers analysed and scored on ESG criteria with the Eleva methodology prior to the investment must be higher than 90% of the invested pocket (i.e. excluding cash).

The Sub-Fund must show, as binding ESG criteria, a better performance than its initial investment universe on the following two ESG key performance indicators: carbon footprint (in tons of CO₂ equivalent/million euros invested) and weighted average of employees growth rates.

As of 31 December 2021, the Sub-Fund:

- Showed a better overall ESG score than its initial investment universe: 65/100 against 57/100;
- Better performed than its initial investment universe on its carbon footprint (in tons of CO₂ equivalent/million euros invested): 60 against 98;
- Presented a better average employees growth rate (rate calculated between 2019 and 2020) than its initial investment universe: 5,1% against 2,2%.

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Appendix 3 – Sustainable Finance Disclosure Regulation (“SFDR”) (unaudited) (continued)

Eleva Leaders Small & Mid-Cap Europe Fund (continued)

The Sub-Fund has set several exclusions:

- Norm based exclusions: companies having violated one or more UN Global Compact principles.
- Sector based exclusions: companies involved in the sector (including production or distribution) of controversial weapons (0% of sales threshold), of tobacco (5% of sales threshold) and of nuclear weapons (5% of sales threshold).

The Management Company has also a coal policy in place limiting investments in companies involved in coal production or electricity produced from coal.

As of 31 December 2021, the fund did not maintain any position not in line with the above-mentioned exclusions.

Engagement was conducted with 100% of the companies in the fund and will be followed up and tracked over the coming years to accompany companies in their improvement of ESG practices. The Eleva Leaders Small & Mid-Cap Europe obtained the French SRI label in October 2021.

Eleva Sustainable Impact Europe Fund

The Eleva Sustainable Impact Europe Fund promotes a combination of environmental, social and governance characteristics and has a sustainability objective. The Eleva Sustainable Impact Europe Fund is classified as article 9 under SFDR with the main non-financial objective of the Sub-Fund is to invest in companies generating, through the products and/or services they sell, a positive contribution on social and/or environmental issues such as health & wellbeing, energy efficiency, renewable energies, sustainable mobility, smart building, sustainable infrastructure, etc.

The Sub-Fund's investment process counts 3 steps based on non-financial criteria:

Step 1/ Strict Exclusion: the Management Company excludes companies from the initial investment universe which have significant negative impacts on specific ESG factors (norm based screening and negative sectors screening excluding Fossil Fuels, Tobacco, Alcohol, Weapons, Adult Entertainment and Gambling). At 31 December, 144 companies were excluded from the initial investment universe.

Step 2/ Positive ESG screening: the Management Company uses a proprietary tool to internally analyze and score the companies on ESG criteria from 0 (worst score) to 100 (best score). The Sub-Fund defines a binding minimum ESG score of 60/100, that each company in the Sub-Fund's portfolio must as a minimum reach. The reduction rate of the universe must be at least 25% and was 55% at 31 December. At the same date, all companies of the portfolio were scored as required by the investment process, with our proprietary methodology. The average ESG score of the fund was 70/100.

The Sub-Fund must show a better performance than its initial investment universe on the following two ESG key performance indicators: weighted average of companies' carbon intensity (in tons of CO₂ equivalent / million euros of sales) and exposure to UN Global Compact signatories. The data coverage percentage has to reach at least 90% for the former and 70% for the latter. At 31 December, the weighted average of companies' carbon intensity was 72 tons of CO₂ equivalent (initial investment: 117 tons of CO₂ equivalent). Exposure to UN Global compact signatories was 74% (initial investment universe: 47%).

Eleva UCITS Fund

Société d'Investissement à Capital Variable

Appendix 3 – Sustainable Finance Disclosure Regulation (“SFDR”) (unaudited) (continued)

Eleva Sustainable Impact Europe Fund (continued)

Step 3/ Impact on social and/or environmental issues: the Eleva Sustainable Impact Europe Fund seeks to invest in companies whose products/services are deemed to make a positive contribution on social and/or environmental issues. These issues have been defined by the Management Company using a proprietary tool based on the UN SDGs framework. For a company to enter the portfolio, a minimum revenue contribution of 20% to one or more United Nations Sustainable Development Goals (UN SDGs) is required. At the portfolio level, the Sub-Fund has an objective to have a weighted average contribution to the SDGs of at least 40%. On 31 December 2021, the Sub-Fund exposure to SDG was 68%.

Engagement was conducted with 100% of the companies in the fund and will be followed up and tracked over the coming years to accompany companies in their improvement of ESG and Impact practices. Launched in December 2020, the Eleva Sustainable Impact Europe Fund obtained the French SRI label in July 2021.
